## Barnard College

### GENERAL STATEMENT

**Columbia University.** — Columbia University had its origin in the royal charter granted by Letters Patent in the reign of George II, King of England, to the Governors of the College of the Province of New York, in the City of New York, in America, creating them a Body Corporate to erect and maintain a college to be known as King's College "for the Instruction and Education of Youth in the Learned Languages and Liberal Arts and Sciences"; with power to elect their successors, to hold property, to appoint a president, fellows, professors, and tutors, and to confer degrees.

Because of its early relationship to Trinity Church and the grant to King's College of a valuable tract of land which was a portion of the Queen's Farm, there has always existed a close relationship between the religious life of the College and the Protestant Episcopal Church. The services at the College Chapel are in accordance with the liturgy of that church.

The Revolutionary War interrupted the active work of the institution, but in 1784 it was reopened as Columbia College. In 1912 the title was changed to Columbia University in the City of New York.

The University at the present time consists of Columbia College, the undergraduate college of liberal arts for men, which offers a program of studies leading to the degree of Bachelor of Arts; the School of Law, with courses leading to the degrees of Bachelor of Laws, Master of Laws, and Doctor of the Science of Law; the College of Physicians and Surgeons, with courses leading to the degrees of Doctor of Medicine, Doctor of Medical Science, and Master of Science in public health, and with courses in nursing leading to the degree of Bachelor of Science, or to the diploma in nursing; the School of Engineering, with courses leading to the degrees of Bachelor of Science, the several engineering degrees, and the degree of Master of Science; the School of Architecture, with courses leading to the degrees of Bachelor of Architecture and Master of Science; the School of Journalism, with courses leading to the degree of Master of Science; the School of Business, with courses leading to the degrees of Bachelor of Science and Master of Science; the School of Dental and Oral Surgery, with courses leading to the degree of Doctor of Dental Surgery; the School of Library Service, with courses leading to the degrees of Bachelor of Science and Master of Science; the nonprofessional Graduate Faculties of Political Science, Philosophy, and Pure Science, with courses leading to the degrees of Master of Arts and Doctor of Philosophy. In addition to these schools and faculties, the University includes the independent corporations of Barnard College (1889), the undergraduate college for women, with courses leading to the degree of Bachelor of Arts; Teachers College (1898), with courses offered under the Faculty of Teachers College leading to the degrees of Bachelor of Science, Master of Arts, and Master of Science;

New College in Teachers College (1932), with courses leading to the degree of Master of Arts; the Advanced School of Education in Teachers College (1935), with programs of study leading to the degree of Doctor of Education, and under the Department of Educational Research of the Faculty of Philosophy or the University Joint Committee on Graduate Instruction, to the degree of Doctor of Philosophy; the College of Pharmacy (1904), with courses leading to the degrees of Bachelor of Science and Doctor of Pharmacy; Bard College (1928), Annandale-on-Hudson, New York, an undergraduate college for men with courses leading to the degree of Bachelor of Arts; Union Theological Seminary (1928), whose faculty conducts certain University work leading to the degree of Master of Arts; and New York Post-Graduate Medical School (1931), which offers advanced work in medicine.

The University maintains three sessions during the year: the Winter Session, beginning the last Wednesday of September and ending the first Tuesday of February; the Spring Session, beginning the first Wednesday of February and ending the second Wednesday of June; and the Summer Session of six weeks' duration, beginning immediately after July 4. Through its system of University Extension the opportunity is offered to men and women to pursue subjects included in a liberal education, and to take courses toward a diploma or an academic degree.

**Founding of Barnard College.** — Barnard is the undergraduate college for women of Columbia University. In 1889 a group of men and women who wished to provide for women in New York City a college education fully equal to that offered to men, succeeded in obtaining the sanction of the Trustees of Columbia for the establishment of an affiliated woman's college. A charter was granted by the State of New York, and promises of subscriptions for the support of the college during the first four years of its existence were secured. Because President Frederick A. P. Barnard of Columbia College had for many years been an ardent advocate of the admission of women to Columbia, the founders of the new college gave it his name. With seven instructors selected from the teaching staff of Columbia and with fourteen regular and twenty-two special students, Barnard opened in the fall of 1889 in a rented house at 343 Madison Avenue.

**Relation to the University.** — In 1900 when the growth of the College had made inappropriate the original informal arrangement for instruction, an agreement was made between the Trustees of Columbia College and of Barnard College by which Barnard was incorporated in the educational system of the University. By the provisions of this agreement, the President of the University is *ex officio* President of Barnard College. Barnard professors are appointed by the University on the nomination of the Dean with the approval of the President and the Trustees, and rank as professors of the University. The College is represented on the University Council by its Dean and two elected representatives. The graduates of Barnard receive their degrees from Columbia, and these degrees are maintained as of equal value with corresponding degrees conferred upon the graduates of Columbia College. The University libraries are open to women on the same terms as to men. Various opportunities in other schools of the University have also, through the relation of Barnard College to Columbia, been opened to Barnard students. On the other hand, Barnard has its separate corporate and financial organization, with its own Board of Trustees. It retains

its own internal administration, conducted by the Dean, who is appointed by the President with the advice and consent of the Trustees of Barnard. Its courses are determined and administered by its own Faculty, consisting of all professors who give instruction at Barnard.

**Buildings and grounds.** — Since 1897 Barnard has occupied the land on Broadway between 119th and 120th Streets, just west of the main buildings of the University. In 1903 Milbank Quadrangle, extending from 119th to 116th Streets, was added through the gift of Mrs. A. A. Anderson. In 1936, largely through a gift from the General Education Board, the College purchased Riverside Quadrangle, between 119th and 120th Streets, Claremont Avenue and Riverside Drive. Milbank Hall and Brinckerhoff Hall, erected in 1896, the gifts respectively of Mrs. Anderson and Mrs. Van Wyck Brinckerhoff, and Fiske Hall, erected in 1898, the gift of Mrs. Josiah M. Fiske, are three adjoining buildings on 119th Street; they contain the administrative offices, lecture rooms, and laboratories. Brooks Hall, a residence hall at the southern end of the Quadrangle on 116th Street, was erected in 1907. A new residence hall adjoining Brooks Hall and known as Hewitt Hall was completed in 1925. Barnard Hall, given by Mr. Jacob H. Schiff and erected in 1917, is on Milbank Quadrangle near 117th Street; it contains the gymnasium, swimming pool, lunchroom, reading room, doctors' and nurses' offices, and rooms for student organizations. Riverside Building, a former private house on Riverside Drive, provides temporarily a few offices and classrooms.

**Financial statement.** — The College owns equipment, buildings, and grounds of a value of \$4,300,000, and holds productive funds providing a net income of about \$200,000.

**Course of study.** — Barnard College offers to women a liberal course of undergraduate instruction of four years' duration, leading to the degree of Bachelor of Arts.

Students who wish two years only of collegiate work, in preparation for professional schools, may enter under the same conditions as those intending to complete the requirements for the Bachelor of Arts degree, and take, during the freshman and sophomore years, a program modified to meet the requirements of the professional school to which the transfer is to be made.

Under certain circumstances, Barnard students in the Bachelor of Arts course may, after three full years of work at Barnard College, receive permission to substitute the first year of an approved professional school for the senior year at college, and still obtain the Bachelor of Arts degree.

**Academic discipline.** — The continuance of each student upon the rolls of the University, the receipt by her of academic credits, her graduation, and the conferring of any degree or the granting of any certificate are strictly subject to the disciplinary powers of the University, which is free to cancel her registration at any time on any grounds which it deems advisable. The disciplinary authority of the University is vested in the President in such cases as he deems proper, and, subject to the reserve powers of the President, in the Dean of each Faculty and the Director of the work of each administrative board.

**Residence.** — All students not residing with their parents are required to live in Brooks Hall or Hewitt Hall unless for reasons of weight they receive special permission to live with relatives. Applications for such permission,

accompanied by letters of approval from parents or guardians, should be made before August 1 to the Assistant to the Dean in charge of Social Affairs. Reservations for rooms outside, made without permission, will not be approved.

## ADMISSION

**To Columbia University in general.** — A student who has fulfilled the preliminary qualifications for candidacy for a degree, certificate, or diploma in regular course is enrolled as a matriculated student of the University. Acceptance is based on the grounds of character and health as well as on the fulfillment of academic requirements. A period of regular attendance upon all stated academic exercises amounting to at least one academic year must be completed by every candidate for a degree.

Students prevented by conscientious scruples from complying with academic requirements which may be fulfilled only upon days set apart by their church for religious observance should make application to the appropriate authority for equitable relief.

In exceptional circumstances a student not enrolled as a matriculated student may be admitted to the University as a nonmatriculated student, with permission to attend such courses of instruction as he or she is qualified to take, but not as a candidate for a degree, certificate, or diploma in regular course. Nonmatriculated students are expected to conform to the same standards of attendance and scholarship as are required of matriculated students. Nonmatriculated students may receive a formal statement of the satisfactory completion of any course. (See page 29.)

Each person whose registration has been completed will be considered a student of the University during the period for which such registration is held valid. No student registered in any school or college of the University shall at the same time be registered in any other school or college, either of Columbia University or of any other institution, without the consent of the appropriate Dean or Director.

Admission to the several schools and colleges of Columbia University presupposes certain educational qualifications, but the possession of these qualifications does not entitle a candidate to admission unless his or her character and personality are acceptable to the University and unless he or she is physically fit to do the work which he or she desires to undertake. Satisfaction of the minimum requirements for admission to a school does not insure admission, particularly if the school be crowded.

**To Barnard College in particular.** — Admission as a matriculated student to Barnard College is obtained by examination, or by a scholastic aptitude test, except that in suitable cases the certified credentials of degree-granting institutions may be accepted for the subjects or parts of subjects which they cover.

Except for reasons of weight, candidates for admission to the freshman class must be at least fifteen years of age at the time of matriculation; candidates for admission to advanced standing must be correspondingly older. Every candidate must, before admission, present a certificate of good moral character from her last teacher, or from some properly qualified citizen. Students from other colleges or universities must present certificates of honorable dismissal.

Information regarding admission may be obtained in person, or by mail, or telephone from the Secretary to the Committee on Admissions of Barnard College.

**Preliminary application for admission.** — Each student who plans to enter the College should file a preliminary application for admission with the Secretary to the Committee on Admissions at as early a date as possible, accompanied by a money order or draft for \$10 payable to Barnard College. This application fee will not be credited on term bill nor refunded for any cause. Other things being equal, early applications will receive the preference.

ADMISSION TO THE FRESHMAN CLASS

Subjects required for admission

The requirement for admission to the freshman class is proficiency in 15 units of secondary school subjects, of which some are prescribed and the remainder elective, as specified below. The unit ordinarily implies the study of a subject for a time equivalent to five periods a week for one year. The term “elementary” as applied to a language implies two years’ study of that language.

	COUNTING IN UNITS
Candidates must offer:	
<sup>1</sup> English . . . . .	3
Mathematics, 1 year elementary algebra, 1 year plane geometry	2
Foreign languages, of which at least 3 must be in one language	5
Elective subjects to be selected from those accepted for admission, as listed below . . . . .	5
	<hr/> 15

*A student interested in mathematics or science, or a pre-medical course is strongly urged to study intermediate algebra in her preparatory course.*

Elective subjects

Candidates may offer any of the following subjects, not included among their prescribed subjects, without other restrictions than that to offer an intermediate or advanced subject will involve offering, either at the same time or earlier, the corresponding elementary subject:

	COUNTING IN UNITS
Bible . . . . .	1
Biology (advanced) . . . . .	1
Botany . . . . .	1
Chemistry . . . . .	1
Drawing . . . . .	1
French, elementary . . . . .	2
French, intermediate . . . . .	1
French, advanced . . . . .	1
German, elementary . . . . .	2

<sup>1</sup> The ordinary four-year secondary school course in English counts as three units.

German, intermediate . . . . .	1
German, advanced . . . . .	1
Greek, elementary . . . . .	2 or 3
History, elementary . . . . .	1, 2, 3, or 4
Italian, elementary . . . . .	2
Italian, intermediate . . . . .	1
Latin, elementary . . . . .	2, 3, or 4
Mathematics, intermediate algebra . . . . .	1
Mathematics, advanced (college) . . . . .	$\frac{1}{2}$ , 1, or $1\frac{1}{2}$
<sup>1</sup> Music appreciation or harmony . . . . .	1
Physics . . . . .	1
Physiography . . . . .	1
Spanish, elementary . . . . .	2
Spanish, intermediate . . . . .	1
Spanish, advanced . . . . .	1
Zoölogy . . . . .	1

## <sup>2</sup> Plans of admission

Five plans of admission are open to properly qualified candidates for admission to Barnard College. In the first plan (Plan A) the candidate offers the College Entrance Board or Regents' examinations in 15 units of high school work; in the second plan (Plan B) she offers four comprehensive examinations; in the third plan (Plan C) she offers two examinations (not English) from the groups required in Plan B and the scholastic aptitude test at the end of the third year, and two, including English, at the end of the fourth year; in the fourth plan (Plan D), she offers an honor record in school and the scholastic aptitude test; the fifth plan is that of the Progressive Education Association.

All plans require:

- A. *The scholastic aptitude test for purposes of record.*
- B. *A satisfactory school record.*

In considering this, the standing of the school, the excellence of the candidate's work, and the subjects studied will be vital. She must have completed in an acceptable secondary school a course extending over at least four years, and covering the subjects required for admission. (See page 18.)

The candidate must have been graduated and must be recommended by her principal or headmistress. In schools in New York State in which Regents' examinations are given, the candidate must have passed the Regents' examinations with satisfactory grades.

In determining whether or not a school is satisfactory the procedure to be followed will be this:

<sup>1</sup> No examination in this subject is given in June. An examination may be taken in September, if a request is filed on or before August 15.

<sup>2</sup> Candidates who find that examinations are fixed for days set apart for religious purposes by the church to which they belong, and who are prevented by conscientious scruples from attending such examinations, are requested to make application to the Committee on Admissions through the Registrar of Barnard College for equitable relief. It should be noted, however, that in case alternative opportunities for taking a given examination are statedly offered, as for instance the June and September entrance examinations, such students are expected to present themselves on the day which is not set apart as a holy day.

Schools within the territory of the New England Certificate Board will be acceptable, if on the accepted list of that board.

Similarly, schools within the territory of the Association of Colleges and Secondary Schools of Southern States, or of the North Central Association of Colleges and Secondary Schools, or the Association of the Middle Atlantic States and Maryland will be regarded as acceptable, if on the approved list of these associations.

Schools outside the territory of any of these bodies will be requested to submit the names of leading colleges on whose accepted lists they do appear, and their acceptability will be determined for the time being upon the basis thus furnished. In case any school recommends students whose records prove to be consistently below the standards, the records of that school will no longer be considered satisfactory.

If a student's work in college should show her deficient in any entrance subject in which she has received credit, her credit in that subject will be canceled.

*C. Satisfactory evidence as to character and promise.*

The candidate's qualities, mental and moral, as shown by her record in and out of school and the recommendations which she can submit will be important factors. Whenever possible, a personal interview will be required. In cases in which this is not possible a photograph must be submitted and the names of at least three responsible citizens must be given as references. *The Committee on Admissions is able to give little, if any, weight to letters of recommendation from persons outside the school of the candidate, unless asked for by the college.*

*D. A satisfactory health record.*

This will include a health history and the results of a health examination. These must be submitted on blanks furnished by the Secretary to the Committee on Admissions and approved by the Barnard College Physician before a student will be permitted to register.

*A certificate from a physician showing vaccination within four years of entering college must be submitted with health report.*

## I. Plan A

Under this plan the following examinations in 15 units may be offered in partial fulfillment of the examination requirements for admission:

1. Those given by the College Entrance Examination Board.<sup>1</sup>
2. Those entrance examinations given by Columbia University.
3. Examinations given in the high schools by the Education Department of the State of New York (Regents') to students who have satisfactorily completed certain courses in these high schools. In these examinations 75% will ordinarily be regarded as the lowest passing mark.

Except for reasons of weight, examinations will be credited only if passed within twenty-nine months of the time the candidate expects to begin her college work.

---

<sup>1</sup> The numerical ratings of the Board are accepted by the College. The passing mark, however, is fixed by the Committee on Admissions.

NOTE. — An intermediate or advanced language examination will not give a student credit for the elementary or intermediate work, unless a mark of at least 85% is obtained in the Regents' examination.

An intermediate algebra examination will not give a student credit for elementary algebra, unless a mark of at least 85% is obtained in the Regents' examination.

Since the Regents' Board no longer gives examinations in advanced botany and advanced zoölogy, all Regents' candidates offering those subjects for admission will be required to take the College Board or Columbia University examinations in the subjects.

4. With special permission, certificates of entrance examinations taken in good faith for admission to other institutions. Such certificates are accepted only in so far as they cover specifically, and by name, subjects, or lettered (or numbered) parts of a subject which are accepted for admission as stated on page 18.

## II. Plan B

In this plan a candidate must furnish school reports covering the entire record of subjects and grades for four years previous to college entrance, and a confidential estimate of character, personality, and promise of usefulness from the school principal. These should be sent to the Secretary to the Committee on Admissions, if possible, before January 15 of the year in which the examinations are to be taken. The Committee on Admissions must give its permission, based on these reports, before the applicant may take the examinations.

She must take these entrance examinations in not less than four subjects at one and the same series of examinations, the subjects in question to include all those prescribed for admission and the examinations to be the comprehensive examinations. These subjects must be the following, unless for reasons of weight the Committee on Admissions allows substitution for 1 or 3:

1. English.
2. A foreign language.
3. Mathematics, comprehensive or in part, or science.
4. A fourth subject, designated by the applicant from the subjects accepted for entrance. This choice will be subject to the approval of the Committee on Admissions, which may at its discretion substitute another subject.

These four examinations must be taken at one time. Comprehensive examinations are held by the College Entrance Examination Board in June, and by Columbia University in September.

At least two examinations must cover more than two units each.

In each subject chosen for examination, the comprehensive examination covering all the units offered by the candidate for admission must be taken.

A student, if admitted, will be admitted without conditions. If she fails of admission, she will not be considered for admission again under Plan B until after the interval of one academic year. She may, however, present herself at the next series of examinations as a candidate for admission under the plan which offers examinations in all 15 units. The results of a candidate's examinations will stand to her credit for twenty-nine months.

A candidate who wishes to enter by Plan B may, if she desires, test herself by taking preliminary examinations — not to be credited toward admission — before she presents herself for the four comprehensive examinations which she plans to count.

### III. Plan C

Candidates under this plan may take at the end of the junior year the scholastic aptitude test and two examinations (not English) from the groups now required under Plan B. On the basis of the results of these examinations provisional acceptance may be given. Final acceptance will depend upon the results of the remaining two examinations which are to be taken at the end of the senior year, and upon the school records of that year.

### IV. Plan D

When this plan of admission is chosen the candidate must offer a four years' honor record from high or preparatory school, and the scholastic aptitude test.

This examination is designed to select the students qualified by general ability to profit by a college course.

The examination will be given June 18, 1938, at 9 A.M. for candidates for admission in the following September. It will also be given on September 20, 1938, at 2 P.M.

### V. Progressive Education Association Plan

Barnard College is coöperating with the selected group of schools in the experiment in secondary education inaugurated by the Progressive Education Association. For the period of the experiment, students with promising records from these schools will be eligible to be considered for admission on the basis of the school records and tests administered by the schools, together with the Scholastic Aptitude Test of the College Entrance Examination Board.

### Examinations

The College Entrance Examination Board will hold the following examinations in April in a number of centers throughout the country *for students who are applying for scholarships*:

Scholastic Aptitude Test  
Scholastic Achievement Test

These examinations are required of all scholarship candidates with the exception of those who are applying for admission with advanced standing from another institution. They must be applied for through the college.

Scholarship applications must be filed with the Secretary to the Committee on Admissions on or before March 1.

The College Entrance Examination Board will hold examinations in June at more than three hundred points in this country and abroad *for students who are applying for admission*. A list of these places will be published about March 1. Requests that the examinations be held at particular points should be transmitted to the Executive Secretary of the College Entrance Examination Board not later than February 1.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1. Upon request to the Secretary of the College Entrance Examination Board a single copy of this document will be sent to any teacher without charge. In general, there will be a charge of thirty cents, which may be remitted in postage.

All candidates wishing to take these examinations should make application by mail to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y. Blank forms for this purpose will be mailed by the Secretary of the Board to any teacher or candidate upon request by mail.

The applications and fees of all candidates who wish to take the examinations in June 1938 should reach the Secretary of the Board not later than the dates specified in the following schedule:

For examination centers

In the United States east of the Mississippi River or on the Mississippi.....	May 30, 1938
In the United States west of the Mississippi River or in Canada.....	May 23, 1938
Outside the United States and Canada, except in Asia	May 9, 1938
In China or elsewhere in the Orient.....	April 25, 1938

An application which reaches the Secretary later than the scheduled date will be accepted only upon payment of \$5 in addition to the regular examination fee of \$10.

When a candidate has failed to obtain the required blank form of application, the regular examination fee will be accepted, if the fee arrive not later than the date specified above and, if it be accompanied by a memorandum with the name and address of the candidate, the exact examination center selected, and a list of the subjects in which the candidate is to take the Board examinations.

When the examination supplies of the local supervisor permit, candidates who have failed to file an application with the Secretary may be admitted, upon payment to the local supervisor of a fee of \$5 in addition to the regular fee, to all examinations except the Scholastic Aptitude Test. Such candidates should present themselves at the beginning of the period of registration. A candidate who registers with the supervisor will receive from him a blank form of application and an identification card which must be filled out and handed to the supervisor for transmission to the Secretary of the Board.

In order to exhibit their tickets of admission, to present their identification cards, and to obtain seats in the examination room, candidates should report for a morning examination at 8:45 and for an afternoon examination at 1:45. An examination will close for candidates admitted late at the same time as for other candidates. The examinations will be held in accordance with the time (Standard Time or Daylight Saving Time) observed in the local schools.

No candidate will be admitted to the Scholastic Aptitude Test late, that is, after the test has begun.

The Scholastic Aptitude Test may be taken upon the completion of the school course or at the end of the third year of secondary school work. Each candidate desiring to take this test, even though she is to take no other examination, must

file with the Secretary of the Board the usual application for examination. If the Scholastic Aptitude Test is taken in connection with other examinations, no additional fee is required; if taken alone, the fee is \$10.

A week in advance of the Scholastic Aptitude Test each candidate who is to take the test should receive a booklet containing, with explanations and instructions, a specimen test the blank spaces of which are to be filled in by the candidate. In order to secure admission to the test, the candidate must present not only his ticket of admission but also this booklet with the spaces filled in as requested.

Barnard College conducts entrance examinations in September of each year. In 1938 they will be held September 19-23. The fee for these examinations is \$10. Every application for examination in September must be accompanied by a fee of \$10 in the form of a postal order, express order, or draft on New York to the order of **Barnard College**. If a late application is accepted, a second fee of \$5 must be paid.

The receipt for the examination fee must be carefully preserved by the candidate and shown (not surrendered) to the supervisor in charge of the examination as evidence of her right to be admitted to the same.

The fee for examination in September cannot be returned unless the request for the cancellation of the application and the return of the fee reaches the Registrar of Barnard College on or before September 15, 1938.

JUNE EXAMINATIONS

June 18-25, 1938

*If a candidate should find it necessary to take more than one examination on the same half-day, the examinations must follow immediately after one another, with an interval, if the candidate request it, not exceeding ten minutes. During this brief interval, the candidate will not be permitted to leave the examination room or to communicate with any one except the supervisor in charge of the examinations.*

**Substitutes for the Board or Barnard examinations.** — Barnard College accepts in lieu of its entrance examinations or those of the College Entrance Examination Board <sup>1</sup> no credentials of any sort, except (1) the examination reports of the Education Department of the State of New York, showing that the candidate has completed certain courses in a high school in the State of New York, and that she has passed the examinations of the Education Department in these subjects; <sup>2</sup> (2) with special permission, the official reports of entrance examinations taken in good faith for admission to other colleges; and (3) certain courses of the Summer Session of Columbia University. These credentials are accepted only in so far as they cover specifically, and by name, subjects, or lettered (or numbered) parts of a subject which are accepted for admission to Barnard College, and state in percentages the grades received in the examinations in such subjects. Candidates must take the regular entrance examinations in the subjects in which their credentials are not deemed adequate. Except for reasons of weight, credentials are not accepted as covering subjects passed more than twenty-nine months previous to the date at which the candidate intends to begin residence. No certificates from preparatory schools or from preparatory departments of colleges will be accepted in lieu of entrance examinations.

In order to be credited toward entrance, the candidate's credentials, together with (1) the statement of the extent and character of her preparation in each subject offered (see School Record, page 19), and (2) any certificates for science laboratory work or drawings that she has to present, must be in the hands of the Committee on Admissions on or before August 1 for admission in September.

**State Education Department examinations.** — Candidates for admission on the credentials of the New York State Education Department should notify the Secretary to the Committee on Admissions of Barnard College of their intention on or before August 1 for admission in September, in order that sufficient time may be allowed for obtaining their records from the Education Department.

<sup>1</sup> The numerical ratings of the Board are accepted by the College, but the passing mark is fixed by the Committee on Admissions.

<sup>2</sup> 75% will ordinarily be regarded as the lowest passing mark in these examinations.

*In these examinations 75% will ordinarily be regarded as the lowest passing mark. These examinations will be subject to the same rules as to series and dates as other examinations (see page 20).*

The subjects for which the State credentials are accepted and their value in Barnard entrance units are as follows:

<sup>1</sup> Credit cannot be secured in these subjects unless the following requirements are met:

(a) In all natural sciences teachers' certificates of laboratory work must be presented. In doubtful cases the candidate will be required to submit a certified laboratory notebook.

(b) In history only the five-count electives will be accepted.

<sup>2</sup> Since the Regents' examination in elementary algebra has been discontinued, students must offer the examination in intermediate algebra.

**Entrance conditions and probation.** — A candidate for admission who has not secured the prescribed 15 units may be admitted to the freshman class with conditions, if, in the judgment of the Committee on Admissions, she is qualified to undertake the work of the class. General deficiency in any prescribed subject will disqualify for admission. Except for reasons of weight, a student who has failed to complete a course in a good high school or preparatory school will not be admitted with conditions.

*All entrance conditions must be removed within one calendar year from the date of entrance.*

A student admitted conditionally, or by credentials from another college or from the State Education Department will be held under probation during the first winter or spring session of residence. By Tuesday of the week preceding the Thanksgiving holidays, each department in which students on probation attend will make to the Committee on Instruction a special report of progress in the case of every such student. The Dean, on the recommendation of the Committee on Instruction, will as soon as practicable after the mid-year examinations decide as to each student on probation whether she shall be admitted to full standing, have her period of probation extended, or be dropped from the roll.

The mark C, B, or A, obtained at the end of the first winter or spring session of residence, in a course of a higher grade than the entrance requirement, will be regarded as removing an entrance condition in that subject, unless the condition was incurred in a part of the subject not directly involved in the work of the college course. To remove a condition by college work, a mark of at least 35% must have been obtained in an entrance examination. Any condition not so removed must be satisfied by a regular entrance examination, for which an application must be filed and a fee paid precisely as required of a candidate for admission. (Regarding removal of entrance conditions by summer session work, see the office of Admissions.)

## ADMISSION TO ADVANCED STANDING

Students who have satisfactorily completed at least a year of work at an acceptable college, scientific school, or foreign institution of equivalent grade may be admitted with such advanced credit as their previous records may warrant. In general a candidate with a good record transferring to Barnard from a similar college of equal standing will receive at Barnard a year's credit for a year's work at the institution from which she comes.

Each candidate should send to the Committee on Admissions with her application blank a catalogue of her college plainly marked, showing entrance credit and courses taken. These should be accompanied by an official transcript of her college record, including entrance credit. If for any reason a student cannot obtain an official record until the end of the term, she may substitute her report cards. One or the other must be in the hands of the Committee on Admissions before the Committee on Transfers can estimate her standing in Barnard College. The Committee on Transfers may give an applicant a tentative estimate of the time she will be expected to spend at Barnard in order to secure a degree, and the prescribed work she will be asked to do. Final determination of these matters lies with the Committee on Transfers, which reserves the right of re-

adjusting credit at any time. These reports should be received by the Committee on Admissions by July 1 for admission in September and by December 1 for admission in February; otherwise action on the case may be delayed until just before the opening of college. Final action on admission depends upon (1) the honorable dismissal, (2) the certificate of good moral character from an authorized representative of her college, and (3) the certificate of sound health.

No applicant may enter the senior class as a candidate for a degree after October 15 in any year, and no student will receive a degree who has resided less than two full sessions (winter or spring) at Barnard College. (See also paragraph 6, page 42.)

Candidates for admission to the freshman class offering by examination more than the required 15 units may be given credit toward a degree for this extra work, on a basis to be determined by the Committee on Admissions, provided that not more than 18 of the 120 points for a degree may be gained in this way.

A candidate for admission with advanced standing from a junior college may be asked to take some form of examination for admission (the scholastic aptitude test, if her records warrant it), and if admitted, will be allowed to enter courses that succeed her junior college courses. No definite credit for her junior college work can be assigned until after she has had an opportunity to establish a good record at Barnard.

## ADMISSION AS SPECIAL STUDENTS

Women who wish, without working toward a degree, to make a serious study of some subject or group of subjects, may, with the approval of the Committee on Admissions, enter Barnard as nonmatriculants. They need not pass formal entrance examinations, but they must submit satisfactory credentials in regard to character and qualifications for the courses they wish to take.

Candidates for admission as nonmatriculants must be mature. They may not pursue merely elementary courses. They must not, within ten months of the time of application, have been rejected or become deficient as regular students.

They will be held to the observance of the same regulations as to attendance, examination in course, proficiency, and deficiency as regular students. They are also subject to the usual health regulations (see page 56).

They are entitled to a formal statement as to the satisfactory completion of the work that they have taken. They may, in view of a good record in college courses, be transferred by the Committee on Instruction to the matriculated basis as candidates for a degree.

## DEFINITION OF REQUIREMENTS

Specimens of the question papers set by the College Entrance Examination Board are published annually in book form by Ginn and Company, Boston, Massachusetts.

For a detailed statement of the requirements the reader is referred to the pamphlet containing definitions of the requirements in each subject, published by the College Entrance Examination Board, 431 West 117th Street, New York.

This pamphlet, which will be mailed by the Board on receipt of twenty-five cents in stamps, also contains lists of suitable laboratory experiments in chemistry and physics.

A statement of the requirements in the English Bible, musical appreciation, and harmony may be obtained on application to the Secretary of the University.

### NOTEBOOKS, DRAWINGS, ETC.

Each candidate must present at the time of examination a certificate from her teacher certifying that the laboratory requirements in each science offered by the candidate have been met. This regulation applies also to drawing. In all doubtful cases the candidate will be required to submit a laboratory notebook. *This regulation applies to candidates using College Entrance Examination Board, Columbia University, State Education Department, or any other entrance examinations.*

Blank forms may be obtained on application to the Secretary to the Committee on Admissions of the College.

### REGISTRATION

**Registration.** — Before attending any University exercise each student shall comply with the regulations in regard to registration and payment of fees. She shall present herself in person at the office of the Registrar and shall there file a registration blank giving such information as may be required for the College records.

Every new student shall also at the time of registration file a statement of the courses which the Committee on Instruction has authorized her to pursue. Students already in college shall give notice of their choice of elective courses for each session to the Registrar on dates to be announced from time to time by the Committee on Students' Programs. Failure to file a program during the period announced by the Committee on Students' Programs will cause the student to incur a fee of \$10 for this privilege. Students in college who defer filing programs from April until after Commencement will incur a fee of \$20.

In September the office of the Registrar will be open for registration on Friday, Monday, and Tuesday, September 23, 26, 27, 1938. New students may register also on Wednesday, September 28, 1938.

In February, students who have been in attendance during the winter session and who have filed in December programs which have been approved may complete their registration during specified hours on Friday, February 3, and on Monday, February 6, 1939.

Registration after 4 P.M. on Monday, February 6, 1939, by a student whose program has been approved will be considered a late registration and will involve the payment of a late registration fee.

Students whose programs have not been approved for one reason or another by the Committee on Instruction will be required to defer registration until Tuesday, February 7, 1939.

All new students entering in February will register on Tuesday, February 7, 1939.

Students registering late are charged an additional fee of \$5 and are held accountable for absences thus incurred.

Each student who holds a scholarship shall present her scholarship certificate to the Bursar *at the time of registration*.

Each person whose registration has been completed will be considered a student of the University during the period for which such registration is held valid. No student registering in Barnard shall at the same time be registered in any other school or college, either of Columbia University or of any other institution, without the consent of the Dean.

**Withdrawal.** — An honorable discharge will always be granted to any student in good academic standing, and not subject to discipline, who may desire to withdraw from the College, but no student under the age of twenty-one years shall be entitled to a discharge without the assent of her parent or guardian furnished in writing to the Dean. Students withdrawing are required to notify the Registrar. (See also *Rebates*, below.)

#### GENERAL STATEMENT REGARDING FEES AND THE REGULATIONS GOVERNING THEIR PAYMENT

All fees are payable semi-annually in advance at the Bursar's office, and no reduction is made for late registration. Registration is not complete until registration, tuition and laboratory fees are paid. Inasmuch as the registration fee is charged for the actual process of fulfilling all the requirements of the Registrar's office, it is incurred when the student receives her bill and must be paid even if she withdraws before attending classes. Payment of fees after the last day of registration (see academic calendar) imposes automatically the statutory charge of \$5 for this privilege. In special cases, for reasons of weight, the payment of one half the tuition fee for the session (\$190) may be deferred until approximately mid-term — November 10 or March 16 — provided that permission has been obtained from the Bursar before September 16 or January 30. **Application for the privilege of deferred payment after these dates will be considered late payment and as such will be subject to a \$5 late payment fee.** In every case where the privilege of deferred payment has been granted, this payment must be made on the due date or an additional \$5 late payment fee will be incurred.

Under the regulations, the privileges of the College are not available to any student delinquent in the payment of her fees.

The fees to be paid by students are subject to change at any time at the discretion of the Trustees.

Checks in payment of all fees, including those for charges in the residence halls, should read "Pay to the order of Barnard College," and should be made out for the exact amount of the payment. As change will not be given on checks, no check which is made out for more than the correct amount will be accepted.

**Rebates.** — Tuition fees alone are subject to rebate. Rebates may be allowed

1. For courses discontinued on or before the second Saturday of each session: After that date no fees will be returned for any course which the student may for any reason discontinue.

2. For total withdrawal from the college, when a pro rata return of fees may be authorized by the Registrar. When such a rebate is allowed it **must** be applied for in writing at the time of withdrawal and will be reckoned from the date upon which the Registrar receives notice from the student.

## FEES

**Application fee**, payable when application for admission is filed . . . \$ 10.00

This fee is not credited on the bill and is never refunded. It should not be confused with the registration fee, payable each session (see below).

**Fees payable each session for a matriculated student enrolled**

1. For 10 points or more:

Registration fee . . . . . \$ 10.00

This fee is due each session when the Registrar issues the bill to the student and is never refunded.

Tuition fee . . . . . \$190.00

Student activities fee . . . . . \$ 3.00

For all regular and unclassified students for each winter or spring session or any part thereof \$203.00

2. For 9 points or less:

Registration fee . . . . . see above

Tuition fee at the rate of \$14 per point for academic work and \$5 each for English D and physical education, if these are taken.

Student activities fee . . . . . see above

**Fees payable each session for a nonmatriculated student:**

Registration fee . . . . . see above

Tuition fee at the rate of \$14 per point for academic work and \$5 each for English D and physical education, if these are taken, with a maximum fee of \$190 per session.

*Additional fees are charged for the following:*

**Tuition for courses in applied music:**

Courses 67, 68, 69, 70, 79, 80, 83a, 84a, each course . . . . . \$100.00

Courses 83b, 84b, each course . . . . . \$ 60.00

Courses 83c, 84c, each course . . . . . \$ 40.00

Courses 93, 94, Section I, advanced students, each course . . . \$160.00

Section II, beginners, each course . . . . . \$ 55.00

**Tuition for courses in studio work in fine arts:**

Drawing and painting u1, u2, each course . . . . . \$ 25.00

**Tuition** for professional and extension courses that are *not* taken for credit and for certain University classes that, with the permission of the Committee on Instruction, are taken for credit toward the Barnard degree. This varies with the course taken.

**Late registration** (see page 31) . . . . . \$ 5.00

**Privilege for filing program late** . . . . . \$ 10.00

For students in college who fail to file their programs for the coming session within the period announced for that purpose by the

Committee on Students' Programs. Students in college who defer filing programs for the winter session until after Commencement are charged \$20 for that privilege.

**Examinations**, payable in each case before the examination is held:

For entrance (see page 23) for each series . . . . .	\$ 10.00
For late application . . . . .	\$ 5.00
For each and every deficiency or special examination . . . . .	\$ 3.00
(A special or deficiency examination is one taken at any time other than at the conclusion of a course actually attended, whether taken prior or subsequent to admission.)	
For the degree . . . . .	\$ 20.00

This fee is never refunded. It must be paid on or before April 15 by candidates for the degree in June or in September and by January 1 by candidates for the degree in February.

**Deposits** for the use of apparatus, material, and the like are required in

Chemistry 63, 64, each course . . . . .	\$ 10.00
Chemistry 41, 42, 65, 66, each course . . . . .	\$ 12.50
Chemistry 42a, 105, 106, 145, 146, 157, 158, each course . . . . .	\$ 15.00
Zoölogy 152 . . . . .	\$ 15.00

NOTE. — Every financial obligation to the College incurred by the student must be met by January 1 of the winter session or by May 1 of the spring session, if the student is to be permitted to take her examinations and receive credit for the session's work.

#### FEEES OF STATE SCHOLARS

Each State Scholar should file at the office of the Bursar *on the day of registration* the notice which she has received from Albany stating that a State Scholarship has been awarded to her. On the basis of this official notice she is entitled to a credit of \$50 a session.

A State Scholarship Certificate for each of these students is then sent from Albany to the Bursar, who records all necessary information and forwards the certificate to its owner. This certificate need not be presented again at the Bursar's office.

#### SAFE-KEEPING OF STUDENTS' FUNDS

For the convenience and protection of students while in residence at the University, the Bursar of Columbia University in Room 310 University Hall is prepared to receive funds for safekeeping, subject to the printed rules and regulations, copies of which may be obtained at his office upon request. There is no charge for this service.

Personal checks will not be cashed by the University or credit allowed until the money has actually been received from the bank on which the check is drawn. However, checks, drafts, and money orders may be deposited for collection. Students should provide themselves with travelers' checks to cover their immediate expenses:

#### RESIDENCE HALL FEEES

Deposit . . . . .	\$15.00
Payable in advance to secure assignment of room. One half of	

this deposit is credited each session on payment of rent. The deposit is forfeited if the applicant withdraws after September 1, or, in the case of an applicant entering at the beginning of the spring session, after January 15.

<b>Board</b> . . . . .	<b>\$300.00</b>
Payable in two equal installments in advance, on or before taking possession of room, and on February 1 <sup>1</sup>	
<b>Rent</b> . . . . .	<b>\$300.00</b>
Payable in two equal installments in advance, on or before taking possession of room, and on February 1 <sup>1</sup>	
<i>Various scholarships ranging in value from \$50.00 to \$700.00 are available for students in need of assistance (see page 45).</i>	

In case of withdrawal of a student from the residence halls, there is no rebate for the rent of the room. A rebate for board is reckoned from the Saturday after the withdrawal.

#### ESTIMATED NECESSARY EXPENSES

Board and room, \$600 for the academic year  
 Registration fee, \$20  
 Annual tuition fee, \$380  
 Student activities fee, \$6  
 Student government dues for resident students, \$1.50  
 Textbooks, \$20 up each year  
 Gymnasium costume, averaging \$6.50  
 Final examination for the degree, \$20

### THE PROGRAM OF STUDIES

Upon satisfactory completion of a program arranged according to the regulations described below (pages 34–38), the student is recommended by the Faculty of Barnard College to the Trustees of Columbia University for the degree of Bachelor of Arts. Diplomas are issued only at Commencement and in February and in October upon the completion of the requirements for the degree.

The requirement for graduation is 120 points, exclusive of the prescribed work in physical education. The term point usually signifies the satisfactory completion of work requiring attendance at class, one hour, or in the laboratory, two hours, a week during a winter or spring session.

#### I. Program of studies for the degree of Bachelor of Arts

In constructing the present curriculum the Faculty was guided by the following general principles:

1. Each student should possess certain fundamental tools, useful for successful work in any field — that is, a command of written and spoken English, the ability to read at sight with ease at least one foreign language, a healthy body and a knowledge of hygiene.

<sup>1</sup> In special cases, upon application to the Bursar, the payment of one half the rent and board for a session may be deferred until mid-term — November 10 or March 16.

- 2. Beyond those needed to give these fundamental tools it is not desirable to prescribe any specific courses or subjects.
- 3. Each student should be required to concentrate her work sufficiently to gain a fairly thorough knowledge of one subject.
- 4. Each student should be required to distribute her work sufficiently to gain some insight into the other main divisions of human thought.

To carry out these general principles, the following specific requirements and regulations were adopted:

Specific prescriptions

English A1-A2 . . . . .	6 points
English D1-D2, D3-D4 . . . . .	1 point
Hygiene A1-A2 . . . . .	2 points
Physical Education A, B, C and D.	

Ability to read at sight with ease one of the following languages: French, or German, or Greek, or Latin.<sup>1</sup> This requirement should be satisfied as early as possible in the college course.

All other work is elective but must include

A major subject of 28 points  
The major must be comprised of work of not less than grade C in some one subject in some one department. It must meet the requirements laid down by the department concerned and announced at the head of the departmental statements on pages 60 ff.

Courses amounting to not less than 14 points  
from each of the following groups other than the one in which the major lies. These may be elected without restriction excepting that in  
(a) Group I, the 14 points may include (1) not more than one elementary course in ancient foreign languages and (2) no first-year course in modern foreign languages.  
(b) Group II, 8 of the 14 points must be in one of the following laboratory sciences: botany, chemistry, geology, physics, experimental psychology, zoölogy.

Group I. Languages, Literatures and other Fine Arts:  
Ancient Art, Anthropology (Courses 5, 6, 7, 8, 9, 107, 108), Classical Literatures (in translation), Comparative Linguistics, English, Esthetics (Philosophy 41-42, 43, 44, 45, 46, 53-54, 145-146), Fine Arts, French, German, Greek, Italian, Latin, Music, Romance Philology, Spanish.

Group II. Mathematics and Natural Sciences:  
Anthropology (Courses 3, 4), Astronomy, Botany, Chemistry, Geography, Geology, Logic (Philosophy 3-4), Mathematics, Mineralogy, Physics, Psychology (Courses 7-8, 19, 20r, 22, 23, 24, 37, 117, 118), Statistics (Economics 18), Zoölogy.

<sup>1</sup> In individual cases by special permission of the Committee on Instruction, Italian or Spanish may be substituted for one of these languages.

**Group III. Social Sciences:**

Anthropology (Courses 1, 2, 51, 52, 109, 110), Archaeology, Classical Civilization, Economics, Geography, Government, History, Philosophy, Psychology (Courses 1, 3, 26, 38, 39), Religion, Sociology, Statistics (Economics 17).

**II. Program of studies for the degree of Bachelor of Arts with the certificate in science or mathematics**

Candidates for the degree of Bachelor of Arts who desire to specialize in the natural sciences or in mathematics may elect the foregoing program of studies with the modifications given below. For the satisfactory completion of the specified requirements they will receive on graduation a certificate which will indicate the nature of the program of studies pursued.

This program of studies is the same as the foregoing program, except in the following specific respects:

**A major subject** of at least 28 points of not less than grade C in one of the following natural sciences: astronomy, botany, chemistry, geography, geology, mineralogy, physics, experimental psychology and zoölogy, or in mathematics, and

**Two minor subjects** of at least 12 points each, one of which must be allied to the major, both to be chosen from the foregoing list. As a minor, geography, geology and mineralogy may count as one subject. Anthropology may also be taken as a minor subject.

**Additional grouped work** in science, or in mathematics, or in science and mathematics, so as to make a total of at least 60 points in science, or in science and mathematics.

**DEGREE WITH HONORABLE MENTION**

Degrees with honorable mention will be awarded to students in the regular course who have had honorable mention for general excellence at the end of each academic year.

**THE HONORS COURSE LEADING TO THE DEGREE OF BACHELOR OF ARTS WITH HONORS IN SPECIAL SUBJECTS**

The Honors Course has been arranged for exceptionally well-equipped students with a pronounced interest in some one subject. It offers to these an opportunity to do more intensive and better work than the ordinary students, to have more chance for independent study, and at the same time more individual conferences with the professors in their major department. It gives them also the opportunity of attaining, by successful completion of this course, high academic honor.

Entrance into the course is optional with those students who are eligible.

**Eligibility.** — Students who have completed 60 points of work with an average standing of 2.90 (see page 44) are eligible as candidates for the Honors Course. The names of students who would be eligible for the course on this basis, *providing the quality of work is sustained until the end of their sophomore year*, will be posted during the third week in March. Students who wish to apply for the course should

do so to the Committee on Honors by April 10. Admission to the course will be subject to the approval of the department in which the student elects to work.

In special cases permission will be given to enter the course in the middle of the junior year, providing similar conditions of eligibility are met.

Eligibility will be based only on the work taken at Barnard College. Summer session courses may count to bring the student's points up to the 60 required for admission to the course, but they will *not* count in the average standing.

Ordinarily students who cannot complete their 60 points until the deficiency examinations in September will not be eligible for admission to the Honors Course until the following February.

A student whose name is not on the eligibility list may be recommended as a candidate for the Honors Course by any department in which she is doing work of conspicuous excellence and promise. Subject to the approval of the Committee on Honors, such a student shall be admitted to the Honors Course.

**Admission.** — Every department will, at its discretion, assign some work to be done by its candidates during the summer. The result of this work and the students' records as a whole will be scrutinized by the department before a decision is made as to the admission of the candidates. The department may require a qualifying examination or some other form of test.

**Supervision.** — After a student has been admitted to this course the appropriate department takes charge of her work and, subject to the approval of the Faculty, arranges the curriculum to be pursued for a degree with honors in her special subject.

**Prescription.** — Students in the Honors Course are not exempt from the completion of the group requirements, including a laboratory science. Where the completion of the group requirements cannot be taken in the junior year parallel to the Honors Course, the student should try to satisfy them in summer session courses. This is possible in practically every subject, excepting the laboratory science. Any deficiency in group requirements must be satisfied before the opening of the senior year. Students seriously deficient in the group requirements will not be admitted to the Honors Course.

All honor students are required to pass by the end of their junior year the regular foreign language test required of other students, in French, or German, or Greek, or Latin. They are also required to pass a reading test in another foreign language, to be set by the department in charge of their work before the mid-year examination period of their senior year.

Students failing to meet these requirements are dropped from the Honors Course.

During the junior year students admitted to the Honors Course are held on probation, and at the end of the year if they have not done thoroughly satisfactory work, the Committee on Honors will recommend that they return to the usual course of study.

During the junior year honor students will be expected to take the regular examinations in the courses for which they are registered and to receive grades in their work, the understanding being that examinations may be omitted only in courses that are elected as optional.

In the senior year all regular examinations in the major subject are omitted, examinations in other subjects being at the option of the major department, and

at the end of the year the student takes a comprehensive examination in the subject. Students who pass the comprehensive examination with high standing are recommended for the degree with honors in their respective subjects. If the examination is passed only moderately well, the student will receive the degree but without honors.

**Exemption.** — Honor students are exempt from the technical requirements of 120 points, from the usual regulation of class attendance, which in their cases will be under the direction of their major departments, and, in their senior year only, from the customary system of grading. Honor students are not exempt from the supervision of the Department of Physical Education.

For special requirements see the various departmental statements, pages 61 ff.

#### PROGRAM FOR STUDENTS ADMITTED BY TRANSFER FROM OTHER COLLEGES

Students transferring to Barnard College with sufficiently good records from other colleges will be held to the requirements for the degree outlined on pages 34–36. They shall not be exempt from the major or the laboratory science or the language requirement. Such students, if sufficiently able, are eligible for the special Honors Course described on pages 36–38. Such students are also eligible for transfer to professional schools under the regulations described below.

The administration of the foregoing provision will be in accordance with the following principles and rules:

1. Such students should have completed at entrance or at other colleges the equivalent of the entrance requirements to Barnard College, as may be determined by the University Committee on Admissions.

2. In general, students who have been accepted by the Committee on Admissions for entrance by transfer to Barnard College will be admitted to the class to which their previous entrance and college records entitle them. The Committee on Transfers will determine, in conference with the student, in view of her previous academic record, her experience and maturity, her intellectual interests and professional plans, the program of work that she shall take. In certain cases a year of probation may be required before the status of the student is exactly fixed.

#### PREPARATION FOR PROFESSIONAL SCHOOLS

Students who intend to transfer to professional schools are of two classes, those who leave Barnard at the end of the sophomore year, without candidacy for the Bachelor of Arts degree, and those who at the end of the junior year wish to take advantage of the 'combined course,' counting the first year of an approved professional school in place of the senior year at Barnard.

Students intending to transfer to professional schools without candidacy for the degree of Bachelor of Arts are required to take English A and D, Hygiene A, physical education throughout their stay at Barnard, and such other courses as are appropriate in preparation for the professional school to which the transfer is to be made. (See Architecture, Business, Law, Medicine, Nursing, pages 39 ff.)

Students with a good record may, by special permission of the Committee on

Instruction, count the first year of an approved professional school in place of the senior year at Barnard. To be eligible for this 'combined course' a student must complete at Barnard, before transferring to the professional school, 90 points of academic work including all grouped work and a major of 28 points unless this number is reduced in individual cases by special permission of the Committee on Instruction.

Students transferring to Barnard from other institutions will be granted this privilege of a 'combined course' only if they have an unusually good record, and in no case will the permission of the Committee on Instruction be given until after the student has completed at least one full year of work in Barnard College. (See Architecture, Business, Law, Medicine, pages 39 ff.)

### COURSES IN THE GRADUATE FACULTIES OPEN TO BARNARD STUDENTS

Certain graduate courses in Columbia University under the Faculties of Political Science, Philosophy, and Pure Science which are listed in the Barnard Announcement are open, with the consent of the department concerned and the Committee on Instruction, to specially qualified seniors. In these courses special arrangements are made for the supervision of the work of undergraduates. Since graduate work is on an entirely different basis of credit from undergraduate work, it is rarely possible for a student in Barnard College to take any graduate courses for which these special arrangements have not been made. Seniors of unusual ability may, however, be permitted in special cases to elect not more than two graduate courses.

Graduate courses, when approved by the Committee on Instruction, may be counted by an undergraduate toward the Bachelor's degree. But any undergraduate student in the regular course in Barnard College who, in the final session of her candidacy for a Bachelor's degree, is within 12 points of that degree may, with the approval of the appropriate Deans, register for graduate courses with a view to offering such courses in fulfillment of the requirements for residence for a higher degree, provided, however, that she shall not receive graduate credit in excess of the difference between 15 points and the number of points that she needed to fulfill the requirements for her Bachelor's degree at the beginning of such session.

This regulation does not apply to a student in the Honors Course who must count toward the honors degree all courses attended in any part of the University prior to taking that degree.

For full information concerning the content of the courses, students are referred to the appropriate University announcements mentioned at the end of the departmental statements given below.

### PROFESSIONAL SCHOOLS FOR WHICH BARNARD STUDENTS MAY PREPARE

#### Architecture

After two years of collegiate work in Barnard, amounting to at least 60 points' credit (exclusive of physical education) and including English A and D, Hygiene

A, two years of college French, mathematics through solid geometry, plane trigonometry, advanced algebra, analytic geometry, and such other courses as may be recommended by the School of Architecture, a student may transfer without examination to the School of Architecture of Columbia University and become a candidate for the degree of Bachelor of Architecture. The course in the School of Architecture leading to this degree generally requires four years for its completion. As only a limited number of students can be accommodated, fulfillment of the requirements does not guarantee admission.

For full information, students are referred to the Announcement of the School of Architecture.

### **Business**

After two years of collegiate work in Barnard, amounting to at least 60 points' credit (exclusive of physical education), including English D and Hygiene A, two years of English, two years of French, or German, or Spanish, or Italian, and one year of economics, a student may transfer without examination to the School of Business of Columbia University and become a candidate for the degree of Bachelor of Science. It is also recommended that a year of work in economic geography be completed before transfer. The course in the School of Business leading to this degree generally requires for its completion two years in addition to the two years of collegiate work in Barnard College.

For full information, students are referred to the Announcement of the School of Business.

### **Journalism**

The Graduate School of Journalism requires a Bachelor's degree for admission. It advises students applying for admission to concentrate in English, government, economics, and history during their undergraduate years.

### **Law**

After three years of collegiate work of good grade amounting to at least 90 points (exclusive of physical education) and including English A and D, Hygiene A, satisfactory courses in economics, in English and American history, and American government and political history, a student may be recommended by the Faculty of Barnard College for transfer without examination (except a capacity test) to the School of Law of Columbia University to become a candidate for the degree of Bachelor of Laws. The course leading to this degree requires for its completion three years of study in addition to the three years of collegiate work at Barnard College.

While the foregoing represents the minimum requirement for admission, a collegiate course of four years leading to a Bachelor's degree is considered the most desirable preparation. Since only a limited number of specially qualified students will be admitted, the fulfillment of the requirements for entrance does not guarantee admission. The selection will be based on the student's capacity for law as determined by the capacity test and her entire college record.

For full information, students are referred to the Announcement of the School of Law.

### Library Service

The School of Library Service requires a Bachelor's degree for admission. A student preparing to enter the School should not fail to acquire a reading knowledge of French and German and should so plan her course that it will constitute an introduction to many fields of knowledge rather than a heavy concentration in any one field.

### Medicine

After three years of collegiate work of good grade at Barnard amounting to at least 94 points (exclusive of physical education), and including English D and Hygiene A, one year of physics based on entrance physics, one year of inorganic chemistry based on college entrance chemistry, one-half year of organic chemistry, one year of biology and one year of English, a student may be recommended by the Faculty of Barnard College for transfer without examination to the College of Physicians and Surgeons of Columbia University, to become a candidate for the degree of Doctor of Medicine. The course leading to this degree requires for its completion four years of study in the College of Physicians and Surgeons.

While the above courses represent the minimum requirement for admission, the authorities of the College of Physicians and Surgeons state that a collegiate course of four years leading to a Bachelor's degree is considered the most desirable preparation. In fact very few students with less than four years' pre-medical training can be admitted, for the reason that there is an excess of applicants who have already received the Bachelor's degree. Because only a limited number of students can be accommodated, fulfillment of the requirements for entrance does not guarantee admission. The entire pre-medical record of each student is carefully examined in order that those who are adjudged most capable of meeting the exacting demands of the course and the profession of medicine may be selected.

For full information, students are referred to the Announcement of the College of Physicians and Surgeons.

### Nursing

The School of Nursing offers a three-year course leading to the degree of Bachelor of Science in Nursing. A minimum of two years of college work is required for admission. Students who hold an acceptable degree may obtain permission to complete the course in less than three years.

### Teaching

Certain courses in the history and theory of education and in methods for secondary schools are given by Teachers College for specially qualified students in Barnard College and may be credited toward the Bachelor's degree. They are described in the departmental statement on page 71.

Regarding the requirements for certification for teaching in secondary schools in New York State or for the position of "teacher in training" in the New York City high schools, students are advised to consult the Occupation Bureau at Barnard College.

It is probable that within the near future it will not be possible to satisfy the

requirements for licenses to teach in the high schools of most states except by taking a year of graduate work. Barnard students desiring these licenses are advised to plan for such a year in Teachers College.

GENERAL REGULATIONS REGARDING THE PROGRAM  
OF STUDIES, EXAMINATIONS IN COURSE,  
CREDIT AND ADVANCEMENT

**Election of courses.** — Before final choice of elective studies, all students should consult their advisers (see page 45), the Committee on Instruction and, in case of any doubt, the instructors in charge of particular courses as well. Electives must be chosen on some consistent plan. Conflicts between courses falling at the same hours are to be avoided by careful study of the scheme of attendance at the end of this volume, which has been drawn up with a view to making possible for everyone the selection of a reasonable number of harmonious elective courses that shall not conflict in hours with each other or with prescribed courses. It often happens that some of the courses of one department form valuable supplements to certain courses of another, so that combinations of work under two or more departments are very desirable. In all such cases the best selections can be made only after consultation with officers of one or more of the departments concerned. This applies particularly to the major subject (see page 35).

The following regulations should also be borne in mind:

1. No courses other than those specified in the Announcement may be taken except by students specially qualified to pursue them with advantage and with the consent of the Committee on Instruction.
2. No combination of courses amounting to less than 12 or more than 16 points may be made in any winter or in any spring session without the consent of the Committee on Instruction.
3. No credit will be given for a one-hour course, unless it is taken in connection with and as a supplement to a cognate course.
4. No more than four hours of class work, or its equivalent in laboratory work, or seven hours of class work and laboratory work combined, may be taken on the same day.
5. Tuesday at 1:10 P.M. is the Assembly hour. Academic meetings at which attendance is required are often held at this time, and all students are requested to keep it free for this purpose.
6. Students entering with advanced standing from other colleges will be required to take 12 points of their major at Barnard.
7. Of the points required for the degree, at least 30 must be taken while the student is registered in Barnard College, of which 30 points at least half should be taken during the senior year.
8. The election of courses under the Graduate Faculties of Political Science, Philosophy, and Pure Science is restricted to specially qualified seniors and requires the consent of the head of the department concerned at Barnard, and of the Committee on Instruction. (For further details see page 39.)
9. The election of specific courses in a summer session at Columbia University

or elsewhere must be approved by the Committee on Instruction of Barnard College. Except by special permission of the Committee on Instruction, granted for reasons of weight, no student whose average standing lies below 2.50 (see page 44) during the preceding academic year will be allowed to count more than 6 points of work taken in a summer session. In no case may more than three courses or 8 points of work be counted in a summer session in any one year. No summer session course that is passed with a grade below C will be credited toward a Barnard degree.

If a student has taken work in a summer session without the previous approval of the Committee on Instruction, she should submit a report of her summer work within a month of her return to college, either in the winter or in the spring session. Otherwise no credit toward the Barnard degree will be allowed for the work that was taken.

10. Specific courses in University Extension may be credited toward the Bachelor's degree under the following regulations:

(a) The election of extension courses must be approved by the Committee on Instruction and by the Director of University Extension.

(b) Students will not be allowed to exceed a total of 16 points, including the points of extension courses, at one time, save with the special permission of the Committee on Instruction, for reasons of weight.

(c) Students desiring to count these courses toward the degree must obtain in them a grade of at least C.

(d) Courses that are not taken for credit toward the Barnard degree will not be covered by the regular tuition fees but must be paid for over and above those fees.

**Time limit for counting work toward the degree.** — All requirements for a degree must be fulfilled by the candidate within six years from the time of her first matriculation as a freshman in college, whether at Barnard or elsewhere; within four and a half years from similar matriculation as a sophomore; within three years from similar matriculation as a junior; and within one and a half years from similar matriculation as a senior. If the candidate fails to satisfy the requirements within the time here specified, she is to lose credit for all the points gained by her toward the degree unless, in individual cases, the Faculty shall otherwise direct.

**The foreign language requirements.** — The foreign language tests are held in January or February, in May, and in September, and are open to students according to regulations announced from time to time by the Committee on Instruction. If a student who entered Barnard as a freshman or a sophomore, and who in February or in September is within a year and a summer session (40 to 42 points) of completing the work for her degree, fails to pass the mid-year or September test she will be suspended until the foreign language requirement is satisfied unless, by special ruling, the Committee on Instruction permits her to remain for one session on probation with a limited program, and the suspension of credit until the test is passed.

A transfer student will be urged to try the test on arrival. If a student who enters Barnard by transfer as a junior or senior, and at mid-year or in September is within a year and a summer session (40 to 42 points) of completing the work for

her degree fails to pass, she will be ranked as unclassified with no promise as to when she may expect to complete the requirements for the degree.

Entering freshmen who are well grounded in their foreign language are advised to try the test on arrival.

**Change of program.** — No change of program, either by adding or by dropping a course, may be made by a student without the written consent of the Committee on Instruction. Except on the initiative of the departments or of the Committee on Instruction, such change will not be allowed *after the first Monday after the opening of either the winter or the spring session*. (See also paragraph on fees, page 31.)

**Absences.** — All students are expected to attend regularly and promptly all the exercises in the courses for which they are registered. Any considerable amount of absence or tardiness will result in the lowering of a student's mark or the loss of one or more points of credit. At the end of each session each student may file in the Registrar's office, on blanks provided for that purpose, a list of her absences and tardinesses with the reasons therefor. After considering these excuses and the reports from the instructors, the Committee on Instruction will adjust marks and credits.

**Stated examinations.** — Two series of examinations are held every year, one in January and the other in May. These are the only stated examinations. In 1939, the mid-year examinations begin on Monday, January 23, the final examinations on Monday, May 22.

**Special examinations.** — Special examinations are held as follows: in the week beginning on the second Monday of the spring session of each year and within the two weeks preceding the opening of the College in the fall.

Such examinations must be taken in one of the three periods for special or deficiency examinations immediately following the stated examination that was missed. They are open, by permission of the Committee on Instruction, to students who have been absent, for imperative reasons, from the stated examination in any course, provided their term work has been satisfactory.

In all cases application for permission to take a special examination must be made in writing.

For each and every examination taken at any time other than the stated examination period immediately following the conclusion of the course involved, a fee must be paid to the Bursar before the student is admitted to the examination (see page 33).

**Grades and credit.** — The student's performance in a course is rated according to the following grades: A, excellent; B, good; C, fair; D, poor; F, failure. The mark *Incomplete* is given only when the student has obtained, in advance, the permission of the instructor to postpone for a short time the submission of certain outstanding term work which must be made up before a specific grade can be reported. Under the regulations of the Faculty, outstanding work that is not completed within three weeks after the end of the session automatically becomes an F.

Standing in college is determined by a valuation of each academic point according to the mark received. Each point with a mark of A counts 4; B, 3; C, 2; D, 1; F (or absent or incomplete until satisfied), 0. The average mark per point constitutes the student's rating.

No student may count for promotion from any class to the next higher class more than 6 points of D work or may be credited with more than 6 points of D work during her senior year. In case more than four years is required for her degree, not more than 24 points of D work altogether may count for the degree. Of several courses in which a student is marked D she may choose the ones to be counted. No work of grade D may count in the major of 28 points.

At the end of the sophomore year especially, the records of all students will be carefully scrutinized and only those who have attained at Barnard College at least a C average (2.0 rating) or who have shown promise of future development will be permitted to continue in college and pursue the more advanced specialized study of the junior and senior years.

In order to be recommended for the degree, each student must attain at Barnard College an average of C or above for the entire course and for the senior year.

If a student fails to obtain a C average at the end of four years and thus does not receive a degree at this time, the Committee on Instruction will consider her case and determine whether or not she may in future continue her candidacy for the degree and, if so, under what conditions.

**Additional credit for high standing.** — At the end of the winter and of the spring session, when all the reports are filed in the Registrar's office, additional credit for high standing is given as follows:

The mark A in courses aggregating 6 points of work (no course to be counted twice) entitles the student to one point of extra credit, provided she has satisfactorily completed all the work of the session and has not fallen below the mark B in any course.

**Classification of students.** — Matriculated students whose record as to entrance conditions and the completion of prescribed work is satisfactory to the Committee on Instruction are classified as follows:

Freshmen, those who have completed less than 24 points of academic work.

Sophomores, those who have completed 24 points.

Juniors, those who have completed 54 points.

Seniors, those who have completed 86 points.

In all cases the requirements for promotion must be met in full before the beginning of the winter session.

A student who fails to meet the requirements for advancement from one class to another may, with the consent of the Committee on Instruction, remain in college and repeat the course or courses in which her deficiency exists, or, in the case of elective courses, other courses equivalent thereto in time. She may not, however, register as a nonmatriculant or as a special student.

Should a student fail of advancement in two successive years, she shall be permanently dismissed from the College, unless, for reasons of weight, the Committee on Instruction shall otherwise determine.

## ADVICE TO STUDENTS

The Dean is always glad to confer with a student regarding any matters that may be of interest to her. Individual instructors may also be consulted at any time by the student regarding her work in their classes.

Before planning her program for the coming year, every student should consult a member of the teaching staff, according to detailed regulations to be announced from time to time by the Committee on Instruction.

Not later than the spring session of her sophomore year, a student should consult the Occupation Bureau regarding opportunities in different occupations which may interest her and the prerequisites thereto.

## SCHOLARSHIPS, GRANTS-IN-AID, LOANS

**Purpose.** — The College desires that no student of exceptional ability shall be kept away from Barnard because her family has only moderate means. To aid students financially, there are Scholarships, Grants-in-Aid, a Loan Fund (see page 51) and provisions in the Occupation Bureau (see page 57) for enabling girls to earn a little money toward their personal expenses.

**Scholarships.** — Scholarships are awarded annually on a competitive basis by the Faculty Committee on Scholarships to full-time students of high scholarly ability, excellent character, and promise of future usefulness, who are in need of aid.

For resident students, — that is, those who live in Brooks or Hewitt Halls — they range in value from \$150 to \$700 a year.

For students who do not live at the College, they range in value from \$75 to \$300, except for one New York City scholarship valued at \$400 every third year.

If a student fail to maintain an average of at least B in her work, or if for any other reason she show herself an unsatisfactory scholar, she may forfeit her scholarship and be ineligible for reëlection the following term.

**Grants-in-aid.** — Grants-in-Aid are awarded by the Faculty Committee on Scholarships to deserving and needy students to help them to enter or to remain in college. No student whose record falls below an average of C will ordinarily be considered eligible for such a grant.

**Residence grants.** — Residence grants are awarded by the Faculty Committee on Scholarships to enable students to live in the residence halls. They range in value from \$25 to \$250.

**Applications from students in college.** — On or before the first of March of each year all applications for scholarships, grants-in-aid, and residence grants must be filed at the Dean's office upon special blanks to be obtained there.

**Applications from entering students.** — On or before the first of March applications for scholarships should be in the hands of the Committee on Admissions. Blanks for this purpose may be obtained in the Office of Admissions.

Applicants are required to take the scholarship examinations held by the College Entrance Examination Board in April, unless they are applying for admission with advanced standing from another institution.

Except for a very few special scholarships, students should not apply for scholarships by name, but should merely indicate the minimum sum needed.

**Scholarship awards.** — Applicants will be informed by the Chairman of the Committee on Scholarships as soon as awards have been made. Applicants receiving awards are requested to inform the Dean's office *immediately*, in writing, if they do not intend to use the funds awarded.

Holders of scholarships, grants-in-aid, and residence grants are requested to file with the Bursar *on the day of registration* a scholarship certificate to be obtained from the Secretary to the Dean.

### COMPETITIVE ENTRANCE SCHOLARSHIPS

**Brooklyn Scholarships (\$150 each).** — Founded in 1895 by the Trustees of Columbia University in recognition of the gift to Columbia University by President Seth Low of a memorial building for the University Library. Open to students resident in Brooklyn and prepared in a Brooklyn school.

**Carpentier Residence Scholarships (\$400 to \$700 each).** — Founded in 1919 with a bequest from the late Horace W. Carpentier. Awarded annually to students who are not residents of New York City or its vicinity.

**Lucille Pulitzer Scholarships (\$300 to \$700 each).** — Founded by the late Joseph Pulitzer in memory of his daughter, Lucille Pulitzer.

Three are restricted to students from the City of New York; eight are for resident students.

**Jessie Kaufmann Scholarship.** — The income of a fund of \$4,000. Founded in 1902 by Mr. Julius Kaufmann in memory of his daughter, Jessie Kaufmann. Awarded on the merits of the entrance examinations to a student who, after careful investigation, is found to have no relative able to assist her financially. It may be held for the entire college course.

**Martha T. Fiske Scholarship.** — The income of a fund of \$5,000. Founded in 1911 by Miss Anna E. Smith, in memory of her sister, Mrs. Martha T. Fiske-Collord. It is awarded, on the basis of scholarly ability and general character, to some deserving candidate not a resident of New York City or its suburbs.

**Edna Chapin Close Scholarship.** — Established by the Barnard College Club of Westchester in 1937, in memory of Edna Chapin Close of the Class of 1902. Value \$400. Awarded to an entering freshman from Westchester County, for one year only.

### GENERAL SCHOLARSHIPS

**Ella Weed Scholarship.** — The income of a fund of \$3,000. Founded in 1895 by the pupils and alumnae of Miss Anne Brown's School in memory of Miss Ella Weed, who was chairman of the Academic Committee of the Board of Trustees of Barnard College during the first five years of its existence.

**Veltin School Scholarship.** — The income of a fund of \$3,000. Founded in 1905 by the alumnae of Mlle. Veltin's School.

**Jennie B. Clarkson Scholarship.** — The income of a fund of \$3,000. Founded in 1898 by the late Mrs. W. R. Clarkson.

**Emily James Smith Scholarship.** — The income of a fund of \$3,000. Founded in 1899 by the late Miss Emily H. Bourne in honor of Miss Smith, then Dean of Barnard College.

**Anna E. Barnard Scholarship.** — The income of a fund of \$3,000. Founded in 1899 by the late Miss Emily H. Bourne in honor of Mrs. John G. Barnard.

**Brearley School Scholarship.** — The income of a fund of \$3,000. Founded in 1899 by pupils and former pupils of the Brearley School.

**Eliza Taylor Chisholm Memorial Scholarship.** — The income of a fund of \$3,000. Founded in 1901 by the Alumnae Association of Miss Chisholm's School, which Association reserves the privilege of precedence for such candidates as it may recommend.

**Graham School Scholarship.** — The income of a fund of \$3,000. Founded in 1907 by the Graham Alumnae Association.

**Mrs. Donald McLean Scholarship.** — The income of a fund of \$3,000. Founded in 1906 by the New York City Chapter of the Daughters of the American Revolution. It is awarded, in conference with a representative of the Chapter, to a deserving student who agrees to pursue the study of history (chiefly that of the United States) continuously throughout her college course.

**Emma Hertzog Scholarship.** — The income of a fund of \$3,000. Founded in 1904 by gifts from residents of Yonkers, N. Y. It is awarded, in conference with the faculty of the Yonkers High School, to a graduate of that school who is entering Barnard College.

**Mrs. Henry Clarke Coe Scholarship.** — The income of a fund of \$3,600. Founded in 1910 by the National Society of New England Women, now the New York City Colony of the National Society. It is awarded, on the nomination of the chairman of the Scholarship Committee of the New York City Colony, to a student from New England or of New England parentage, and after the award is once made the Society requires from the beneficiary full obedience to discipline and the highest ideals of scholarship. This may be awarded to an entering freshman.

**Eleonora Kinnicutt Scholarship.** — The income of a fund of \$5,000. Founded in 1911 in memory of Mrs. Francis P. Kinnicutt, who was a Trustee of Barnard College. It is awarded at the end of the freshman year to a student of exceptionally high standing, and may be held for three years, provided the recipient continues to maintain a high rank. It will be awarded in 1939 and 1942.

**Emma A. Tillotson Scholarship.** — The income of a fund of \$5,000. Founded in 1910 by the late Mrs. Luther G. Tillotson. It is awarded at the end of the freshman year to a student of exceptionally high standing, and may be held for three years, provided the recipient continues to maintain a high rank. It will be awarded in 1940 and 1943.

**William Moir Scholarships.** — The income of a fund of \$10,000. Founded in 1912 by the late Mrs. William Moir, in memory of her husband.

**Mary Barstow Pope Scholarship.** — The income of a fund of \$4,000. Founded in 1913 in memory of Mary Barstow Pope, sometime teacher in Miss Chapin's School, by her friends, her fellow-teachers, and her pupils. It is open to any undergraduate of Barnard College for the whole or any part of her course, and is awarded on the nomination of a self-perpetuating committee representing the founders.

**Charles E. Bogert Memorial Scholarship, and Anna Shippen Young Bogert Memorial Scholarship.** — The income of a fund of \$10,000. Founded in 1913 with

a bequest from the late Annie P. Burgess. They are awarded to worthy and deserving students of good Christian character who are unable to pay their own expenses.

**Martha Ornstein Brenner Scholarship.** — The income of a fund of \$4,000. Founded in 1915 by her friends in memory of Martha Ornstein Brenner, 1899.

**Barnard School Alumnae Scholarship.** — The income of a fund of \$4,000. Founded in 1916 by the alumnae of the Barnard School for Girls. It may be awarded to a student in any class, preference being given to nominees of the school.

**Fanny I. Helmuth Scholarship (at least \$262).** — Established on a temporary basis by the Daughters of Holland Dames in honor of Fanny I. Helmuth. It is awarded in conference with a representative of the society to a student of Dutch descent who is in need of aid.

**Anna M. Sandham Scholarship.** — The income of a fund of \$10,000. Founded in 1922 with a bequest from the late Anna M. Sandham.

**Eleanor Butler Sanders Scholarship.** — The income of a fund of \$10,000. Founded in 1922 with a bequest from the late Henry M. Sanders.

**Scholarship in English.** — The income of a fund of \$5,000. Founded in 1920 by an anonymous donor. It is awarded to a student of good standing who is specializing in English and is in need of help; with the proviso that, if in any year there is no student specializing in English who stands out as particularly deserving of aid, the scholarship may be used, at the discretion of the Faculty Committee on Scholarships, to assist a student majoring in some other subject.

**Lucille Pulitzer Supplementary Scholarships (\$50 each).** — Founded by the late Joseph Pulitzer in memory of his daughter, Lucille Pulitzer. They are awarded to worthy and needy students, and may be used to supplement larger scholarships or themselves combined into scholarships of \$100 or more. The money is applicable to tuition fees, residence fees, or, in special cases, general outside expenses.

**Augusta Larned Scholarship.** — The income of a fund of \$10,000. Founded in 1924 with a bequest from the late Augusta Larned.

**Mary E. Larkin Joline Scholarship.** — With an annual value of \$300. Founded in 1927 with a bequest from the late Mary E. Larkin Joline. It is awarded to a student who is specializing in music.

**Charlotte Louise Jackson Scholarship.** — The income of a fund of \$5,000. Founded in 1928 with a bequest from the late Fannie A. Jackson. It is awarded to a graduate of a Yonkers high school selected by or under the direction of the Board of Education of Yonkers.

**Alice Marie-Louise Brett Scholarship.** — The income of a fund of \$10,000. Founded in 1930 with a bequest from the late Philip E. Brett in memory of his daughter, Alice Marie-Louise Brett, of the Class of 1915. It is awarded during her senior year to an able and deserving student specializing in French.

**Schmitt-Kanefent Scholarship.** — The income of a fund of \$7,000. Founded in 1931 with a bequest from the late Catherine Schmitt.

**Helen Elizabeth Vosburgh Scholarship.** — The income of a fund of \$5,000. Founded in 1934 with a bequest from the late Katherine G. Lippke in memory of Helen Elizabeth Vosburgh of the Class of 1925. In awarding this scholarship, preference is given to a self-supporting student.

**Willina Barrick Memorial Scholarship.** — The income of a fund of \$5,000. Founded in 1936 by the College Club of Jersey City as a memorial to Willina Barrick, 1900. It is awarded on the nomination of the Club to a graduate of a Jersey City secondary school entering Barnard College.

**Barnard College Club Scholarship.** — A residence scholarship with an annual value of \$700, established in 1936 by the Barnard College Club of New York.

**Virginia Gildersleeve International Scholarship.** — The income of a fund of \$5,000. Founded in 1937 by Mr. Charles R. Crane. It is awarded annually to a foreign student coming to Barnard to study.

#### SPECIAL FUNDS FOR THE AID OF NEEDY AND DESERVING STUDENTS

**Arthur Brooks Fund.** — A fund of \$5,000 given in 1897 by Miss Olivia E. Phelps Stokes as a memorial to the Reverend Arthur Brooks, D.D., Rector of the Church of the Incarnation and Chairman of the Board of Trustees of Barnard College during the first six years of its existence.

**Fiske Scholarship Fund.** — A fund of \$5,000, given by the late Mrs. Martha T. Fiske-Collord, the income of which is placed at the disposal of the Dean of Barnard College.

**George W. Smith Scholarship Fund.** — A fund of \$5,000, given in 1906 by the late Mrs. Martha T. Fiske-Collord as a memorial to Mr. George W. Smith, who was a Trustee of Barnard College. The income of the fund is placed at the disposal of the Dean of the College.

**Mary Gertrude Edson Aldrich Scholarship Fund.** — A fund of \$1,000, given by Mrs. James Herman Aldrich. The income is used to assist in her senior year a student who has shown in her college life the moral qualities which go to the making of fine womanhood.

**Scholarship Fund.** — A fund of \$9,930 established by general subscription through the Scholarship Committee of the Board of Trustees.

**Carpentier Scholarship Fund.** — A fund of \$200,000, the bequest of the late Horace W. Carpentier. The income remaining after the payment of the Carpentier Residence Scholarships described on page 47 is placed at the disposal of the Dean for distribution in scholarships of varying amounts, according to the needs of deserving students.

**Caroline Church Murray Fund.** — A fund of \$5,000 established in 1918 by Mr. George Welwood Murray in memory of Caroline Church Murray. The income is placed at the disposal of the Dean to be used in aid of needy and deserving students.

**Irma Alexander Goldfrank Fund.** — A fund of \$2,105, established in 1919 by the friends of the late Irma Alexander Goldfrank, 1908. The income is placed at the disposal of the Dean to be used in aid of needy and deserving students.

**Alumnae Scholarship Fund.** — A fund of approximately \$3,010 established by the Class of 1912 at its tenth reunion, and subsequently increased by a legacy from the estate of Julia Ludlow Young, an alumna. The income is to be used to help needy and deserving students.

**Thomas F. Clark Students' Loan Fund.** — A fund of \$100,000, the bequest of the late Mrs. Fanny Foster Clark. The income is to be used to aid needy and deserving students.

**Edna Henry Bennett Memorial Scholarship Fund.** — A fund of \$1,640, established in 1927 by friends of the late Edna Henry Bennett, 1915, Lecturer in Zoölogy. The income is to be awarded by the Department of Zoölogy to Barnard students for work at the Marine Biological Laboratory, Woods Hole, Massachusetts.

**Class of 1919 Decennial Fund.** — A fund of \$5,000, established in 1929 as a 10th reunion gift by the Class of 1919, to endow a room in Hewitt Hall for the use of a deserving and needy student.

**Class of 1921 Scholarship Fund.** — A fund of \$2,500, established in 1931 as a 10th reunion gift by the Class of 1921. The income is to be used to help needy and deserving students.

**Eva-Lena Miller Booth Scholarship Fund.** — A fund of \$1,000, given in 1932 by the New York City Chapter of the Daughters of the American Revolution as a memorial to the late Mrs. Eva-Lena Miller Booth. The income is to be used to help needy and deserving students.

**Alpha Zeta Club Scholarship Fund.** — A fund of \$2,500, established in 1936 by the Alpha Zeta Club. The income is awarded to a member of the graduating class for graduate work or, at the discretion of the Dean, to an undergraduate for undergraduate work.

**Ida Blair Memorial Fund.** — A fund of \$700, established in 1937 by the Women's Democratic Union, in memory of Ida Blair. The income of the fund is to be used for the purchase, in each year, of books for such student in Barnard College (preferably one studying political science) as shall be designated as deserving by the Dean.

## STUDENTS' LOAN FUND

A Students' Loan Fund of \$12,000 is maintained by the Associate Alumnae. From this fund loans are made at a low rate of interest to students in need of financial assistance, whether for college tuition and residence fees or for outside expenses. The loans and interest are to be repaid within seven years after graduation. Under the rules of the Students' Loan Committee, no money may be granted to a freshman in her first winter or spring session; it may be granted in the second only in exceptional cases. The chairman of the committee, to whom inquiries

should be addressed, is Miss Helen Crosby, Room 2401, 330 Fourth Avenue, New York, N. Y.

The operation of this fund as a loan fund, as distinct from the special scholarship funds already mentioned, makes it possible to keep the capital in continuous use by successive generations of students. While the committee does not deem it advisable to lend a very large amount to any one student, it has not found that loans of moderate size prove a burden on the borrowers. The committee desires to make the fund as helpful as possible and wishes therefore to have students in need of assistance apply to it freely.

**The Noel Morris Memorial Student Loan Fund** in the amount of \$2,500, established in 1937 by Alice V. Morris II of the Class of 1936 in memory of her brother, is available for loans to students for undergraduate and graduate work. German majors, and students wishing to study abroad, particularly in Germany, will be given preference, and the loans may be of substantial size. The Fund is administered by the Student Loan Fund Committee of the Associate Alumnae of Barnard College, with the coöperation of the Head of the German Department, on the same conditions as to guarantee, interest, and repayment as those required for loans from the Alumnae Fund described above, although some of those conditions may be modified in special cases. Application should be made to Professor W. A. Braun, Head of the German Department.

## GRADUATE FELLOWSHIPS

**George Welwood Murray Graduate Fellowship.** — The income of a fund of \$15,000. Established by Mr. George Welwood Murray in 1930. The holder is to pursue a year of graduate study at Columbia or any other university or college of approved standing. This fellowship is to be awarded each year as an academic honor to that member of the graduating class of Barnard College who, in the opinion of the Faculty, shows most promise of distinction in her chosen line of work in the field of the humanities and/or the social sciences. Should the recipient prove in no need of financial assistance, she may retain the title and honor but resign the income, which may then be used by the College for other fellowships or scholarships. This fellowship is not to be applied for but is to be awarded each year as soon as possible after the mid-year examinations. Students graduating in February are to be eligible, as well as those graduating in June.

**Grace Potter Rice Fellowship.** — Established in 1935 by Mr. Winthrop Merton Rice in memory of his wife, Grace Potter Rice, Instructor and Assistant Professor of Chemistry at Barnard from 1918 until 1934. It is of an annual value of \$600. The holder is to pursue a year of graduate study in natural sciences or mathematics at Columbia or any other university or college of approved standing. This fellowship is awarded each year as an academic honor to that member of the graduating class of Barnard College who, in the opinion of the Faculty, shows most promise of distinction in her chosen line of work. Should the recipient prove in no need of financial assistance, she may retain the title and honor but resign the income, which will then be used for other fellowships or scholarships. This fellowship is not to be applied for, but is awarded each year as soon as possible after the mid-year examinations. Students who have graduated in February are eligible, as well as those who are to graduate in June:

**The Herbert Maule Richards Fund.** — Established by the Barnard Botanical Club, former students, and friends in memory of Professor Richards, an officer of the Department of Botany from 1896 to 1928, and Chairman from 1897 to 1928. The income from this fund will be granted from time to time to further botanical research, under the direction of an approved institution, to a student or alumna of Barnard College.

### MARGARET MEYER GRADUATE SCHOLARSHIP

An annual graduate scholarship of a value of \$75, established by Mrs. Alfred Meyer in 1923 in memory of Margaret Meyer Cohen of the Class of 1915, awarded annually to a member of the graduating class and providing a course of training in secretarial work.

### PRIZES

The following prizes are awarded annually, on the recommendation of the appropriate departments of the Faculty of Barnard College, in accordance with the special conditions named below. No prize will be awarded to any student who falls below grade C in any course during the year in which she is a competitor.

**Herrman Botanical Prize.** — A prize consisting of the income of a fund of \$1,000, founded by the late Mrs. Esther Herrman, is awarded annually to the most proficient undergraduate student in botany.

**Kohn Mathematical Prize.** — A prize consisting of the income of a fund of \$1,000, founded by Mrs. S. H. Kohn, is awarded annually to a senior for excellence in mathematics. Competitors for this prize must have pursued mathematics continuously during their college course.

**The Jenny A. Gerard Medal.** — The Jenny A. Gerard Gold Medal, given in 1908 by the Society of the Colonial Dames in America in memory of Mrs. James Gerard, late President of the Society, is awarded annually to the undergraduate student of American birth in Barnard College who is most proficient in American colonial history.

**Speranza Prize in Italian.** — A prize consisting of the income of a fund of \$1,000, founded by a former student in memory of the late Carlo Leonardo Speranza, Instructor and Professor of Italian at Barnard from 1890 until 1911, is awarded annually to a student in Barnard College for excellence in Italian.

**von Wahl Prize.** — A prize consisting of the income of a fund of \$1,300, founded in 1915 in memory of Constance von Wahl, 1912, President of the Undergraduate Association, is awarded annually to a student for excellence in zoölogy, on the understanding that it is to be used to advance her knowledge in that field. If in any year no student stands out as eminently deserving of the prize, it is not awarded.

**Caroline Gallup Reed Prize.** — A prize consisting of the income of a fund of \$1,000, founded in 1916 by Mrs. William Barclay Parsons in memory of her mother, Mrs. Sylvanus Reed, for the recognition of special study in the subject

of the origin of Christianity and early church history, is awarded annually to the student who shows the highest excellence in this field of work. The award is made partly on the basis of an examination and partly on the basis of an essay to be handed in by May 1. A syllabus of the period to be covered may be obtained from the Chaplain of the University.

**Jean Willard Tatlock Memorial Prize.** — A prize consisting of the income of a fund of \$1,250, founded in 1917 by her friends in memory of Jean Willard Tatlock, 1895, is awarded annually to the undergraduate student most proficient in Latin.

**The Helen Prince Memorial Prize.** — A prize consisting of the income of \$1,200, founded in 1921 by Mr. Julius Prince in memory of his daughter, Helen C. Prince, of the Class of 1922, is awarded annually to an undergraduate student in Barnard College for excellence in dramatic composition.

**Dean Prize in German.** — A prize consisting of the income of \$1,000, one-fifth of a fund of \$5,000 established in 1925 by Mr. Edward D. Adams for the promotion of the study of German language and literature in Barnard College, is awarded annually to that member of the senior class at graduation who has throughout her course done the best work in German language and literature.

**Frank Gilbert Bryson Memorial Prize.** — A prize consisting of the income of a fund of \$3,000, founded in 1931 with a bequest from the late Ella Fitzgerald Bryson, of the Class of 1894, in memory of Frank Gilbert Bryson, is awarded annually to a member of the graduating class who has given conspicuous evidence of unselfishness during her college course.

**Mary E. Allison Prize.** — A prize consisting of the income of a fund of \$1,000, founded in 1937 with a bequest from the late Estelle M. Allison in memory of her mother, Mary E. Allison, is awarded annually to a student of general excellence in scholarship.

**Estelle M. Allison Prize.** — A prize consisting of the income of a fund of \$1,000, founded in 1937 with a bequest from the late Estelle M. Allison, is awarded annually to a student for excellence in literature.

The following prizes of Columbia University are by their terms open to students of Barnard College:

**Bennett Prize.** — A prize established through a gift of \$1,000 from James Gordon Bennett may be awarded by the Faculty of Political Science for the best essay upon some subject of contemporary interest in the domestic or foreign policy of the United States. The competition is open to students not holding a Baccalaureate degree who pursue courses amounting to six hours a week in the School of Political Science. The subject for the essay to be handed in May 1, 1939 is: "Proportional Representation with Special Reference to New York City."

**The Bunner Medal.** — The H. C. Bunner Gold Medal, established by the friends of the late Henry Cuyler Bunner, is awarded annually at Commencement to the candidate for a Columbia degree who shall present the best essay on an assigned subject in American literature. The award will be made by a

committee to be appointed by the President. The subject for the essay to be handed in May 1, 1939 is: "Biographers of Lincoln."

**Earle Prize in Classics.** — A prize of \$50, established in memory of Mortimer Lamson Earle, Instructor in Greek in Barnard College from 1889 to 1895 and from 1898 to 1900, and Professor of Classical Philology from 1900 to 1905, is open for annual competition to all candidates for the degree of Bachelor of Arts. It is awarded partly on the basis of a special examination, partly on the basis of consistently good work in the regular Greek and Latin courses. The special examination covers specified portions of Greek and Latin literature, sight reading in Greek and in Latin, and prose composition in Greek and in Latin. The special subjects for 1939 are: 1. The *Iliad*, Books 18, 19, and 20, edition of Leaf and Bayfield, Vol. II. (Macmillan). 2. Tacitus, *Dialogus*, edition of Bennett. (Ginn & Co.). The use of larger editions, also, such as those of Peterson and Gudeman, is recommended.

For the award in 1939, the examination will be held in January. Students are urged to do much of their work for the examination during the preceding summer vacation.

**McDonald Medal in Rumanian Studies.** — A prize awarded annually at Commencement over a five-year period ending in 1939, for the best essay of from 4,000 to 6,000 words on an assigned topic in the history or contemporary development of Rumania. The contest is open to any student in the University, but the accepted rules and practices of historical research and writing must be observed. Essays must be submitted to the Secretary of the University by April 1. The subject for 1938-1939 is: "The Possibilities of Intensifying Trade between Rumania and the United States."

**The Caroline Phelps Stokes Prize.** — The Caroline Phelps Stokes Prize of \$40 is awarded annually at Commencement to that student who, having been regularly enrolled in Columbia College, or Barnard College, or Teachers College as a candidate for an academic degree, for not less than two sessions, winter or spring, shall be deemed to have written the best essay upon an assigned topic bearing upon the rights of man. The subjects for the essay to be handed in May 1, 1939 are: 1. "The Propriety of Limitation of Human Rights by the Power of the Majority." 2. "The Propriety of Limitation of Human Rights by the Power of the Minority."

## RESIDENCE HALLS

Brooks Hall and Hewitt Hall (see page 16), the residence halls for Barnard College students, will open on Friday, September 23, 1938, and will close at 12 noon Friday, June 9, 1939. Candidates for admission or students who wish to secure accommodations in the halls during the week of the June entrance examinations or the September entrance or deficiency examinations should make arrangements directly with the Assistant to the Dean in charge of Residence Halls, not later than June 1 or September 1, respectively.

Full information in regard to the situation and cost of rooms and the advance deposit is published in a separate pamphlet, to be had on application to the Assistant to the Dean in charge of Residence Halls. All correspondence regard-

ing accommodations in the halls should be addressed to the Assistant to the Dean in charge of Residence Halls, Barnard College, New York, N. Y. All checks and money orders should be made payable to the order of Barnard College. For the residence hall fees see page 33.

The post-office address for resident students is Brooks Hall, 3001 Broadway, New York, N. Y.

For regulations in regard to the residence of students who do not live in Brooks Hall or in Hewitt Hall, see page 16.

The King's Crown Hotel, located at 420 West 116th Street, in close proximity to the University, is owned by the University and operated by the Knott Hotels' Corporation. It provides accommodations at reasonable rates, available for relatives and guests of members of the University.

## HEALTH AND PHYSICAL EDUCATION

The University Medical Officer, Dr. William H. McCastline, the College Physician, Dr. Gulielma F. Alsop, and the Head of the Department of Physical Education, Professor Agnes R. Wayman, by means of lectures, personal advice, and a broad program of activity adapted to the needs and condition of the individual endeavor to promote the health of the students. The sanitation of the College is under their supervision. Assistant physicians, two trained nurses, and six instructors work under their direction.

A physical and medical examination is required of each student upon entrance, at the end of the first year, and just before graduation. A motor ability test and a swimming test are also given upon entrance. Frequent medical inspections are given each student. These examinations and tests are made the basis for determining the type of physical activity a student should take. Great emphasis is placed upon the teaching and learning of skills which can be used after college. Special remedial and corrective classes as well as rest periods are provided for students requiring special individual attention. When necessary, recommendations are made to the Committee on Instruction regarding the student's academic program. As far as possible the work in the Department of Physical Education is conducted in the open air and the program is planned to meet the problem of individual differences and interests.

Barnard Hall contains a gymnasium, swimming pool, a room for "corrective" work, one for "remedial" work, and one for dancing. The students have also, on Milbank Quadrangle, tennis courts, tenikoit courts, an archery range and a practice field for games. The roof of the building is provided with equipment for "moderate" games for the students physically unable to take part in more strenuous activities. There are three additional tennis courts and golf cages on the Riverside Quadrangle. A rest room is reserved for the use of the students.

An all-year-round camp is maintained in Westchester Co., near Ossining, N. Y., on a ten-acre plot of wooded land. This camp was the gift of the Alumnae in 1933. It is administered by a committee representing the Athletic Association, the Department of Physical Education, the Academic Faculty, and the Alumnae. It furnishes an ideal opportunity for recreation and activity in the open as well as for the practice and learning of camp crafts.

Much stress is laid upon the development and training of student leadership, and ample opportunity is offered for students to assume responsibilities in connection with the work of the department, as well as that of the Athletic Association.

## THE UNIVERSITY LIBRARY

The general Library of the University contains about 1,563,100 volumes, exclusive of unbound pamphlets and doctoral dissertations. The various departments of instruction have special libraries in connection with their lecture-rooms and laboratories. The Avery Architectural Library, the Law Library, the Ella Weed Library of Barnard College, the Teachers College Library, and the libraries of the College of Physicians and Surgeons and the College of Pharmacy are all available to students of the University.

For the convenience of the undergraduates of Barnard College there is maintained in the Ella Weed Library in Barnard Hall a carefully selected collection of reference books of about 56,000 volumes.

## UNIVERSITY BOOKSTORE

The official University Bookstore is situated in the Journalism Building, with entrances at the southeast corner of 116th Street and Broadway, and from South Quadrangle between Furnald Hall and Journalism. Books and other supplies are sold at discounts from the usual prices. The store is open on week-days from 8:30 A.M. to 8:30 P.M.; Saturdays, 8:30 A.M. to 6 P.M.; during the first days of each session, until 10 P.M. The store maintains a theater and concert ticket service, a travel bureau, telegraph agency, and other services with substantial savings to Columbia students. Students having deposit accounts with the University may also make withdrawals at the bookstore.

Branches of the University Bookstore are maintained in Avery Hall, the McMillin Theater lobby, and at the College of Physicians and Surgeons.

## ASSEMBLY AND CHAPEL

University and College assemblies and other academic meetings at which attendance is required are held on Tuesdays at 1:10 o'clock. Students must keep this hour free from other engagements.

In St. Paul's Chapel, the chapel of Columbia University, service is held every week-day except Saturday at 12 o'clock and on Sunday morning at 11 o'clock. At these services attendance is voluntary.

A special University service is held in St. Paul's Chapel on the Tuesday preceding the Thanksgiving recess.

## OCCUPATION BUREAU

The Occupation Bureau registers alumnae and students in search of employment or professional advancement, and recommends them to employers who apply

to the College. It supports by letters of recommendation applications which qualified candidates may make directly, on their own initiative. In many cases, it can supply introductions to possible employers and suggest lines of approach.

In general, students are not advised to undertake employment during their first winter or spring session in college, since it is difficult for them to estimate at first the amount of time that can safely be spared from academic work. That is, the College prefers that they do not enter until they have funds available for the first year's expenses. After the first session or first year an able student in good health can usually arrange to spare three or four half-days a week, and can perhaps earn a part of her expenses in this way. Some summer work may also be obtained. Most unskilled student work is, however, paid at a low rate. No student who carries a full course can expect to earn all of her expenses, both tuition and living. At the present time opportunities in most types of work are few compared to the number of students in search of them.

Both students and graduates making inquiry of the bureau are given as much information as possible about opportunities in different lines of work and the requirements therefor. For each student a personal record including scholastic achievement, rating in the entrance scholastic aptitude test, extra-curricular interests, vocational interests, and experiences, etc., is kept in this office, in order that the vocational information given may be as helpful as possible. A small library of vocational books, pamphlets, and bibliographies is in the bureau for the use of students, as well as files of civil service examination notices and regulations of state and city education departments. Considerable information in regard to occupational problems, opportunities, and requirements is accumulated through the survey of alumnae occupations and earnings made in connection with the quinquennial *Alumnae Register* and through the informal individual reports of the many graduates who keep in personal touch with the bureau. The Vocational Advisory Committee of the Associate Alumnae coöperates with the bureau, particularly in planning vocational meetings; and members of the Faculty assist students with information in regard to particular occupations.

The College keeps in touch with the *Coöperative Bureau for Teachers* and the *Institute of Women's Professional Relations*, and utilizes the information collected by them.

## STUDENT ORGANIZATIONS

Under the system of self-government in use in the College, the various student organizations are supervised by the Student Council and the Representative Assembly, subject to the general approval of the Faculty. The Student Council also administers the Honor Code, in accordance with which all students on entering Barnard College agree to maintain a high standard of honor in examinations and all phases of college life.

Every regular or unclassified student is a member also of the Undergraduate Association, and as such is at liberty, on payment of the student fee, to take part in all general undergraduate and class functions, to make use of all privileges of the Athletic Association, and to receive the College weekly paper and literary quarterly. Special students may become special and associate members of the Association, if they so desire.

## DEPARTMENTAL STATEMENTS

*The following general regulations apply to all courses. The paragraphs on "The Program of Studies," pp. 34-36, should be carefully read.*

Admission to courses depends upon completion of the prerequisites as stated for each course. In all cases the requirements as to prerequisites for any course must be completed before the beginning of the winter or of the spring session in which the course is given. Where no prerequisite is stated and where no limitation is noted, the course may be taken for a degree by any student of the college.

When an announced course has not been applied for by at least three candidates for a degree, the instructor may withdraw it.

Where the hours for laboratory work are not given in the departmental statement they must be arranged after consultation with the officer in charge of the course.

Courses designated by capital letters are prescribed. Elective courses are designated by numbers, odd numbers indicating the winter session, and even numbers the spring session. A compound course is therefore designated by an odd number and the succeeding even number. The numbers from 1 to 99 inclusive are given to courses open only to undergraduates; the numbers from 101 to 199 inclusive are given to courses open to both undergraduates and graduates, the lower numbers in each case being used for the introductory courses.

A Roman numeral in parentheses after the hour indicates the section number (*e.g.*, M., W. and F. at 9 (I), at 10 (II), etc.).

In the statement of each course the prerequisites are indicated. When no department is named, it is to be assumed that the reference is to a numbered course in the same department. *No credit in points will be given for a course which is taken subsequent to the course or courses for which it is in any way a prerequisite, though not formally so announced. Courses must be taken for the credit value announced — for no more or no less.*

A hyphenated course (*e.g.*, History 1-2) is regarded as a full-year course, of which the first half is always assumed to be a prerequisite for admission to the second half, and, except for reasons of weight, and with the written consent of the instructor, no credit will be given for work dropped at the mid-year or before the completion of the course. A course of which the index signs are separated by a comma (*e.g.*, English 3, 4) is regarded as a divisible course of which the first half may be taken separately. *Admission to the second half of a divisible course is granted only when all prerequisites have been met and the written consent of the instructor obtained.*

Courses marked with an asterisk (\*) are given at Columbia University (*cf.* p. 39).

Courses marked with a dagger (†) are given at Teachers College. *Work at Teachers College mentioned herein may be pursued only by regularly enrolled students of Barnard College and only when counting for a Barnard College degree. Certain courses not here specified as being open at Teachers College may, through*

*the courtesy of Teachers College and with the consent of the Committee on Instruction, be taken by such students.*

For further detailed information in regard to topics, text-books, or methods in any particular course students are referred to the instructors.

## ANTHROPOLOGY

*A major in anthropology will satisfy the requirement in Group III. Students majoring in this subject must satisfy the 14-point requirement in Group II in subjects other than anthropology. For other students, courses in anthropology will count toward the group requirement as indicated for each course by the statement made in connection with the point value.*

**A major in Anthropology.** — Students majoring in anthropology will be required to take: (a) a comprehensive examination in three parts of which one will be in language, the other two according to the work pursued by the individual student and (b) the following courses in

**Anthropology** — Courses 1, 2, or 3, 4.

**Other fields** — A reading knowledge of German and courses which will vary with the special interest of the student and must be arranged in consultation with the major department.

**Honors course** (see page 36). — Candidates for a degree with honors will be required to submit a paper which is the result of research in some special subject. The comprehensive examination will include a knowledge of anthropological problems, theories and methods. Required courses will differ for individual students but the following are suggested: a reading knowledge of Spanish and German; fundamentals of natural sciences or social sciences, or both; mathematics, preferably through integral calculus.

**[1, 2 — Introduction to historical anthropology.** Professor REICHARD. 8 points in Group III.

Open to all excepting freshmen. Either half of this course may be taken separately.

The early history of mankind; the antiquity of man; the races of man; the distribution of languages; the independent development in the new world and the old; characterization of the tribes of Africa, Australia, Polynesia, Asia, prehistoric Europe and America.

*Not given in 1938–39.]*

Courses 1, 2 and 3, 4 are ordinarily given in alternate years.

**[3 — Not given in 1938–39.]**

**4 — Introduction to comparative anthropology.** Professor REICHARD. 4 points in Group II.

M., W. and F. at 1, and weekly visits to the American Museum of Natural History at hours to be arranged. Students who have taken Course 1, 2 need not repeat the museum work for Course 4 but may satisfy the fourth point by reading and research.

Open to all excepting freshmen.

The growth of civilization; the historical development of industries, forms of art, society and religion. The application of anthropological data to modern social problems; the development of reason; the emotional attitudes determining behavior; the influences of patterns determining lines of thought and action; the individual and society.

**[5 — Not given in 1938–39.]**

**6 — Language and thought.** Professor REICHARD. 2 points in Group I.

W., 2–4.

Specially recommended for foreign students and students interested in language and linguistic problems.

Analysis and comparison of expression in English and one or more Indo-European languages (determined by language offered by students electing course); relationship between grammar, thought and vocabulary. Special attention to analysis, use and function of vocabulary.

**[7 — Not given in 1938–39.]**

**8 — The study of unwritten languages.** Professor REICHARD. 2 points in Group I.

Hours to be arranged.

Kind of thought and its expression in unwritten languages. Methods of recording, significance of grammatical processes; thought categories; analysis of vocabulary; types and distribution of languages; importance of language research in the social sciences; relationship between language, race and culture.

**9 (old number 10) — Folk music.** Professor HERZOG. 3 points in Group I.

M. and W. at 10. 417 Schermerhorn extension.

The study of folk music in Europe and in America; its relation to balladry, song text and the social setting. Comparisons with occidental, oriental and primitive music. Demonstrations by phonograph records.

[51 — *Not given in 1938-39.*]

**52 — Seminar: problems in anthropology.** Professor REICHARD. 2 points in Group III.

M., 2-4.

Open only to students who have had some work in anthropology and with the permission of the instructor. May be taken two years in succession.

The specific subject for discussion will be determined by the interest of the students applying for the course.

[**107 — Traditional literature.** Professor REICHARD. 3 points in Group I.

Open to juniors and seniors.

Primitive literature in the old and new worlds. Form and content of tradition: the proverb, riddle, folk tale, myth, fairy tale, romance, adventure, novel, verse and song. Types of character and plot. Mythological styles defined.

This course aims to acquaint students with valuable material which is not generally known, rather than to develop mythological theories, although the latter will be briefly discussed.

*Not given in 1938-39.*]

**108 — The art of primitive man.** Professor REICHARD. 3 points in Group I.

M., W. and F. at 11. 503 Schermerhorn.

Open to juniors and seniors.

Control of technic; geometrical and representative design. Art of various groups defined. A study of proportion, of design, line and mass; of rhythm, symmetry and balance; of color. The attitude of the artist and of the social group. Theories of art.

Courses 107, 108 and 109, 110 are ordinarily given in alternate years.

[**109 — Primitive social life.** Professor REICHARD. 3 points in Group III.

Open to juniors and seniors.

The organization of the family, sib, totem and association; kinship and marriage customs; rank, property, wealth, inheritance, position of women, education; birth, puberty and funeral customs; political organization; the relation of the individual to his environment and comparisons between modern and primitive societies.

*Not given in 1938-39.*]

[**110 — Man and the supernatural.** Professor REICHARD. 3 points in Group III.

Open to juniors and seniors.

Primitive religion: questions of taboo, ancestor worship, the fetish, animism, shamanism, the vision, priesthood and witchcraft; deities, sacrifice and ceremonialism. Rationalistic and emotional factors in religious life. The relation of religion to other phases of culture. Theories of origins and development.

*Not given in 1938-39.*]

More advanced courses given at Columbia University are described in the Announcement of the Division of Philosophy, Psychology and Anthropology.

**ARCHAEOLOGY.** See **Fine Arts and Archaeology** and **Greek and Latin**.

### ASTRONOMY

**\*1-2 — General astronomy.** Introductory course. Professor SCHILT. 6 points.  
Tu. and Th. at 11, and quiz and observatory hours, Monday evening at 7:30.  
301 Physics.

This course leads to an understanding of our knowledge concerning the structure of the solar system and the sidereal universe. The method of approach is descriptive rather than mathematical.

More advanced courses given at Columbia University are described in the Announcement of the Division of Mathematical and Physical Sciences. Students wishing to continue work in astronomy should note the prerequisites for the advanced courses and plan their work accordingly.

### BOTANY

**A major in Botany.** — Students majoring in botany will be required to take in Botany — Courses 51-52; 53-54 or 55-56; and such other courses, subject to the approval of the department, as meet the particular needs and purposes of each student.

**Other fields** — At least one year's work in chemistry and in zoölogy, a reading knowledge of a modern foreign language, and other courses according to the special needs of the student.

**Honors Course** (see page 36). — The comprehensive examination assumes: (a) a knowledge of the morphology, physiology and classification of plants; (b) a more thorough acquaintance with a particular field of botany, including work on a special problem in this field; (c) familiarity with the history of botany and subjects requisite for and cognate to a study of the major topic.

**51-52 — Principles of the morphology, physiology and classification of plants.** Professors SINNOTT and CAREY, Misses BINDLOSS and ———. 8 points.

Lectures: Tu. and Th. at 11. Laboratory (4 hours): Tu. and Th., 9-11 or Tu. and Th. 2-4, or, if more than 60 students elect the course, M. and W., 1-3.

**53-54 — Comparative morphology and development of plants, study of types.** Professor HAZEN. 8 points.

Lectures: Tu. and Th. at 9. Laboratory (4 hours): on Tu. and Th. in so far as possible.

Prerequisite, Course 51-52, or the equivalent.

**55-56 — Structure and relationships of flowering plants.** Professor HAZEN. 6 points.

Lecture: F. at 2. Laboratory (4 hours) by arrangement.

Prerequisite, Course 51-52, or the equivalent.

**58 — General plant physiology.** Mrs. RICHARDS. 5 points.

Lectures: Tu. and Th. at 11. Laboratory (6 hours): Tu., 2-5 and Th., 1-5, in so far as possible.

Prerequisite, Course 51-52.

**150 — Principles of genetics.** Professor SINNOTT. 3 points.

Lectures: Tu. and Th. at 3. Laboratory (2 hours): Th., 4-6 (or by arrangement).

Prerequisite, a year of college work in either botany or zoölogy.

**151 — Bacteria and ferment fungi.** Professor CAREY and Miss ———. 6 points.

Lectures: M., W. and F. at 1. Laboratory (6 hours): M. and W., 9-12 or M., and W., 2-5, or hours to be arranged.

Prerequisite, Course 51-52, or the equivalent. Preceding or parallel, organic chemistry. Open only to properly qualified juniors and seniors.

[152 — *Not given in 1938-39.*]

**153 — Physiological anatomy of vascular plants.** Mrs. RICHARDS. 5 points.

Lectures: Tu. and Th. at 11. Laboratory (6 hours): Tu., 2-5 and Th., 1-5, in so far as possible.

Prerequisite, Course 53-54 or 55-56, except on written permission of the instructor.

**157 — Embryology and microscopical methods.** Professor HAZEN. 3 points.

Hours to be arranged for 6 hours of laboratory work with occasional lectures.

Open to students only after consultation with the instructor.

Practice in methods of microscopical technic, with the study of the embryology of one or more types.

**158 — Structure and development of algae.** Advanced course. Professor HAZEN. 4 points.

Hours to be arranged.

Prerequisite, Courses 51-52 and 53-54.

Special attention may be given to algae of water supplies.

**161, 162 — Advanced morphology and physiology.** Professors SINNOTT, HAZEN and CAREY and Mrs. RICHARDS.

Hours and credit by arrangement.

Work will be planned to suit the needs of students after consultation with the instructors. This course may be taken in successive years.

## CHEMISTRY

**A major in Chemistry.** — Students majoring in chemistry will be required to take in Chemistry — Courses 5-6, 63, 64, and 41-42. Course 105 is strongly advised.

**Other fields** — Physics — a year's work in general physics;

Mathematics 7-8 or 1 and 22. A course in calculus is advised;

A reading knowledge of German to be acquired by the beginning of the third year's work.

A reading knowledge of French is also necessary for students specializing in chemistry.

**Honors Course** (see page 36). — The comprehensive honors examination assumes: (a) knowledge of inorganic, organic, physical and analytical chemistry; (b) a more thorough acquaintance with one of these divisions and of a special problem in this; (c) the history and present trend of chemistry; (d) mathematics, physics, French and German.

**5-6 — General inorganic chemistry.** Professors REIMER and KELLER, Mrs. FISHER and Miss ANDERSON. 8 points.

Lectures: Tu. and Th. at 10 and a third hour, S. at 10 or F. at 1. The S. hour is intended primarily for freshmen.

Laboratory: For students who are beginning the subject (I) Tu., W. or Th., 2-4:30.

For students who have passed the entrance examination in chemistry (II) M. or Tu., 2-4:30. In order to obtain full credit for the course a student who has passed the entrance examination in chemistry must take laboratory section (II).

Preceding or parallel, Mathematics 7-8 or 1 and 22.

**63, 64 — Qualitative and quantitative analysis.** Professor KELLER and Dr. BEHRENS. 12 points.

Lectures: M., W. and F. at 10. Laboratory (6 hours): M. and W., 1-4 or Tu., 2-5 and Th., 1-4.

Laboratory deposit, \$10.00 each session.

Prerequisite, Course 5-6.

**65, 66 — Quantitative analysis, advanced course.** Professor KELLER and Dr. BEHRENS. 8 points.

Lecture: Th. at 1. Laboratory (6 hours): Tu. and Th., 9–12.

Laboratory deposit, \$12.50 each session.

Prerequisite, Course **63, 64**.

This course is designed to meet the needs of individual students and will be given for a class of five or more.

**41–42 — Organic chemistry.** Professor REIMER, Drs. DOWNES and MORRISON. 12 points.

Lectures: M., W. and F. at 9. Laboratory (a minimum of 6 hours): M. and W., 2–5 or Tu. and Th., 9–12.

Laboratory deposit, \$12.50 each session.

Prerequisite, Courses **5–6** and, except on written permission of the department, **63, 64**.

**42a — Organic chemistry, shorter course.** Drs. DOWNES and MORRISON. 6 points.

Lectures: M., W. and F. at 9. Laboratory (a minimum of 6 hours): M. and W., 1–4 or Tu., 2–5 and Th., 1–4.

Laboratory deposit, \$15.00.

Prerequisite, Course **5–6**.

This course will be given for a class of five or more.

**105 — Physical chemistry.** Professor KELLER and Dr. BEHRENS. 6 points.

Lectures: M., W. and F. at 2. Laboratory (a minimum of 6 hours): Tu. and Th., 9–12.

Laboratory deposit, \$15.00.

Prerequisite, Courses **63, 64; 41–42; Physics 11–12**, and a course in calculus.

**106 — Inorganic chemistry, advanced course.** Professor KELLER and Dr. BEHRENS. 6 points.

Lectures: M., W. and F. at 10. Laboratory (a minimum of 6 hours): Tu. and Th., 9–12.

Laboratory deposit, \$15.00.

Prerequisite, Courses **63, 64; 41–42; Physics 11–12**.

**145, 146 — Organic chemistry, advanced course.** Professor REIMER. 12 points.

Lectures: M., W. and F. at 11. Laboratory (a minimum of 6 hours): Tu. and Th., 2–5.

Laboratory deposit, \$15.00 each session.

Prerequisite, Courses **5–6; 63, 64; 41–42**.

**157, 158 — Problems in chemistry.** Conferences and laboratory work in advanced organic or inorganic chemistry or micro-analysis. Professors REIMER and KELLER and Dr. BEHRENS.

Hours and credit by arrangement.

Laboratory deposit, \$15.00 each session:

Open only to advanced students.

**Physiological chemistry.** Professor GREGORY and Dr. DOWNES. 12 points.  
See Zoology 151-152, page 117.

**CHINESE.** See Fine Arts and Archaeology, History, and Oriental Civilizations.

**CLASSICAL CIVILIZATION.** See Greek and Latin.

### COMPARATIVE LINGUISTICS

**1, 2 — The foundations of language.** Professor GRAY. 4 points.

Tu. and Th. at 4. 308 Philosophy.

Open to all excepting freshmen.

This course cannot count toward the major in any language.

Winter session: The nature and universal principles of language, its physiological and psychological foundations, and its relations to the various phenomena of human civilization: classification, distribution and characteristics of the types of language.

Spring session: Survey of the Indo-European languages; sound-changes and sound-laws; outlines of inflection and syntax; development of the meaning of words.

The entire course is designed to give students in classics, modern languages and English a general scientific knowledge of the principles common to all languages, particularly as found in the Indo-European group, and thus to aid them in gaining a better understanding of the languages in which they are specializing.

### ECONOMICS AND SOCIAL SCIENCE

*Course 18 counts in Group II unless taken as part of a major in economics or sociology in which case it may count toward that major and the 14-point requirement in Group II must be satisfied in other subjects.*

**A major in Economics or in Sociology.** — Students may major in economics or in sociology. Students majoring in sociology may, with the permission of the department, offer as part of the required 28 points, one or more courses in allied subjects. All students majoring in economics or sociology will be required to have a reading knowledge of French or German and to take:

**Economics 1-2 and 17** — Beyond these the work will vary with the interest of the students. Immediately following Course 1-2, those majoring in economics will take Courses 13, 14 for 3 points each and Course 17; but an advanced course may be taken parallel to 13; 14 and 17.

**Other social sciences** — In view of the essential unity of the social sciences every student majoring in economics or in sociology is required to take courses from the following list amounting to 12 points distributed between two departments. Certain of these courses may also be counted toward the satisfaction of the general requirement in Group II. (See page 35.)

Anthropology 1, 2 or 3, 4; 109, 110;  
Geography 1, 2;  
Government 1, 2; 3, 4; 7, 8; 23, 24;  
History 1-2; 9, 10; 19, 20; 51, 52; 149, 150;  
Psychology 1;  
Religion 3, 4.

Sociology majors may elect courses in economics including Economics 1-2 and economics majors may elect courses in sociology including Sociology 1-2 in place of the social sciences listed above.

**Honors Course** (see page 36). — The comprehensive examination assumes: (a) knowledge of (1) principles of economics, current economic problems, history of economic theory and development, statistics or (2) principles of sociology, current sociological problems, social work, psychological and anthropological sociology; (b) a more thorough acquaintance with a smaller group of allied subjects from the preceding list and (c) special proficiency in some one chosen interest from this field. French and German are desirable as tools. Important allied subjects are government, psychology, history and anthropology. A detailed statement of honors requirements is available on application to the department.

## ECONOMICS

**1-2 — Introductory economics.** Professors BAKER and GAYER, Dr. ELIOT and ————. 6 points.

M., W. and F. at 10 (I and II), at 2 (III), also at 2 (IV) for freshmen only. This course is divisible for freshmen only.

Course 1 is prerequisite to Course 2. Both courses are required of majors and are prerequisite to other courses as indicated.

A study of present-day economic life with emphasis on certain general or basic features: consumption, production in a power age, the corporate organization of business, the security markets, industrial combination and concentration of control, the monetary and banking system, business cycles and problems of stabilization.

A study of outstanding economic problems in the light of current facts and of economic analysis — railroads and public utilities, agriculture, foreign trade and foreign exchange, labor problems, labor unions, social security and other labor legislation, government finance and taxation, proposed basic reforms (co-operation, economic planning, socialism, fascism, communism).

**13 — Economic history of England.** Professor ————. 2 or 3 points.

Tu. and Th. at 11 (2 points); additional hour, W. at 4 (3 points).

Prerequisite, Course 1-2 or History 12.

A survey of the economic development of England since 1800. Special attention is given to the social and economic problems of machine production; the trade policy of England; the labor movement; imperialism.

**14 — Economic history of the United States.** Professor ————. 2 or 3 points.

Tu. and Th. at 11 (2 points); additional hour, W. at 4 (3 points).

Prerequisite, Course 1-2 or History 10.

A study of leading economic questions since 1800 in agriculture, industry, trade, transportation and banking.

**17 — Introduction to statistics.** Dr. ELIOT. 3 points.

Tu. and Th. at 10 and a laboratory hour to be arranged.

Open to all excepting freshmen.

The gathering of statistical data; questionnaires; tabulation; graphs and charts; simpler methods of summarization and comparison. Statistical fallacies. Illustrative examples from various sciences.

**18 — Statistical methods.** Dr. ELIOT. 3 points in Group II.

Tu. and Th. at 10 and a laboratory hour to be arranged.

Open to all excepting freshmen.

Prerequisite, Course 17 or the equivalent.

Students are given the opportunity to acquaint themselves with the more common and basic techniques, such as index numbers, correlation and analysis of time-series, and with some statistical applications of the normal probability curve.

**19 — Labor problems.** Professor BAKER. 3 points.

M., W. and F. at 10.

Prerequisite, Course 1-2.

The American workers and their problems in relation to the industries in which they work, their geographical location, their occupations, their age and their sex. Basic causes of labor unrest including those related to irregular employment and to wages, hours of labor and freedom of speech. Public and private attempts to relieve unrest through legislation, "company unions," "open shop" and scientific management.

**20 — Trade unionism and its problems.** Professor BAKER. 3 points.

M., W. and F. at 10.

Open to seniors and juniors and to sophomores who have had Course 1-2 and preferably Course 19.

Attempts by organized labor to relieve the causes of labor unrest. Contrasting methods of the American Federation of Labor and the Committee for Industrial Organization; their struggle for supremacy. The response of management to the demands of organized labor. Administration of the Railway Labor Act and the National Labor Relations Act. Legal status of labor as decided in the courts. Organized labor in European countries and in Russia and international labor organization.

**[21, 22 — Corporate enterprise and the state.** Professor BAKER. 6 points.

Prerequisite, Course 1-2. Course 21 is prerequisite for Course 22.

The development and present nature of financial and business organization with relation to the state and to investor, worker and consumer.

Winter session: The financial structure of corporate enterprise including the nature of corporate securities, promotion, capitalization and financial statements. Principles and practices of investment.

Spring session: The business organization as a going concern dealing with its problems of marketing, production, personnel and finance. The rôle of the government in the regulation of corporate enterprise on behalf of stockholders and bondholders, workers and consumers.

*Not given in 1938-39.]*

**23, 24 — Money, banking and international finance.** Professor GAYER. 6 points.

M., W. and F. at 2.

Prerequisite, Course 1-2. Course 23 is prerequisite for Course 24.

A course in general principles and current problems. The nature and functions of money, banking and credit; monetary standards, gold, bimetallic and paper; the cyclical and secular influences governing the price level; the relations between money, prices and business activity; the fundamentals of banking theory and organization in the United States and Great Britain; the relations between banking and government fiscal policy; the foreign exchanges and the world money markets; the general theory of international trade and payments; sources and consequences of monetary instability; proposals for monetary control and banking reform; current problems of monetary policy and economic stabilization.

If numbers permit, the work of the spring session may be largely conducted along lines of seminars and reports, with opportunities for students to do independent work.

**25, 26 — The consumer in economic society.** Mrs. THOMPSON. 4 or 6 points.

Tu. and Th. at 2.

Prerequisite, Course 1-2.

Systematic analysis of consumption as an economic function, with New York City, current statistics, daily news, and the student's own economic experience as a laboratory in which theory and reality are continually tested against each other.

Winter session: Historic change in consumer's relative importance, illustrated by classical economic theory and the Hutchinson theory of the significance of standards of living as a test of the efficiency of an economic system; living-cost data in the United States and abroad; market analysis and planned consumption; consumer-coöperatives and other examples of the theory of managed purchasing power.

Spring session: Consumer and the government; inventory of organized consumer activities; factors in consumer choice.

**27, 28 — The economic organization of society.** Professor GAYER. 6 points.

M., W. and F. at 11.

Prerequisite, Course 1-2 and, preferably, Course 23. Course 27 is prerequisite for Course 28.

The historical development of a systematic explanation of economic life. The underlying forces in the competitive order and their reflection in economic theory. Neo-classical economics. Marxism and other criticisms of orthodox theory. Alternative systems of organization and proposals for reform and planned economy. Economic organization in England, Germany, Italy and Russia. The interaction of economic forces will be stressed. Economic theory is discussed with direct reference to the basic economic problems of the modern world, such as economic instability and unemployment, competition, monopoly and control; the distribution of income and of resources, and international economic relations.

**29, 30 — Statistical research.** Dr. ELIOT. 6 points.

Hours to be arranged.

Prerequisite, Course 17 and the written permission of the instructor.

Special problems in social science selected with reference to the interest of the individual student. The emphasis is on the application of methods in actual statistical investigation, in the field when practicable, rather than on acquisition of further theory or technic.

**51, 52 — Seminar for majors.** Professor BAKER. 6 points.

Hours to be arranged.

Open only on written permission of the instructor to seniors majoring in economics.

**\*101, 102 — Public finance.** Professor HAIG. 6 points.

M. and W. at 1. 301 Fayerweather.

Open to qualified seniors. Course 101 is prerequisite for Course 102.

Winter session: General introduction and history of public finance. General theories and principles of taxation, incidence of taxation, and newer social theories of taxation. Application of general principles to consideration of actual systems of taxation.

Spring session: Practical American problems of Federal, state and local taxation. Different kinds of public revenues, including public domain and public property, public works or industrial undertakings, fees and special assessments. Classes of public expenditure and fiscal principles which govern them. Public debt, methods of borrowing, redemption, etc. Fiscal organization of state. Budgets, national, state and local.

**\*111-112 — Capitalism in the nineteenth and twentieth centuries.** Professor BURNS. 6 points.

W., 3-5. 401 Fayerweather.

Open to qualified seniors.

A discussion of the development of capitalism in its more mature form, mainly in Europe and America. The economic and social changes constituting the development of "high capitalism." Local variations on these changes. The increasing concentration of control over economic resources. The expansion of the emergence of devices for and policies of social control. The economic and social stability of capitalism. The economic theorists and capitalism.

**\*124 — The development of American economic thought.** Dr. DORFMAN. 3 points.

M. and W. at 3. 412 Business.

Open to qualified seniors.

Lectures and discussions concerned with economic writing in the United States, a study of economic speculation as a phase of a culture. Economic thought from its early association with other branches of knowledge to its emergence as a separate science; how far and in what ways the science has deviated from earlier purposes. Economists are studied separately and in groups and their work is examined comparatively. New types of theory and new approaches to the field receive special emphasis.

**\*161 — The regulation of public utilities.** Professor BONBRIGHT. 3 points.

Tu. and Th. at 11. 405 Business.

Open to qualified seniors.

An economic study of the public control of those enterprises, such as the electrical, gas, and street railways utilities, that are deemed to be "affected with a public interest." The concept of a public utility and the problems of regulation which are implied by this concept; the history of regulation in this and other countries; types of control exercised by public service commissions; valuation and rate regulation; the determination of proper rate schedules as between different classes of customers and service; the problems of capitalization and security regulation; the holding company and other forms of utility combinations; the relative advantages of private and public ownership.

More advanced courses given at Columbia University are described in the Announcement of the Division of History, Economics, Public Law and Social Science.

## SOCIOLOGY

**1-2 — Introduction to sociology.** Professor WALLER and Dr. KOMAROVSKY. 6 points.

M. and W. at 11 and in sections at one of the following hours: F. at 10 or at 11.

Open to sophomores, juniors and seniors.

The elements of the social structure, customs, institutions and associations; group interests and group formations; the family; the fabric of modern large-scale organization; the adjustment of society to environment; the more recent evolution of the social structure.

**7, 8 — Human nature and the social order.** Professor WALLER. 6 points.

M., W. and F. at 2.

Prerequisite, Course 1-2. Course 7 is prerequisite for Course 8.

Communication and the social self; social backgrounds of personality; the behavior of crowds and publics; propaganda, its uses and limitations; the analysis of selected social institutions of the modern city on the basis of concepts of human nature previously elaborated.

**9 — The social process in the organized group.** Professor WALLER. 2 points.

M. and W. at 3.

Prerequisite, Course 1-2.

The setting of the organized group in the institutional framework of society; social interaction in typical situations of the organized group; leadership and control; analysis of techniques employed in various kinds of organized groups.

**21, 22 — An introduction to the field of social work.** Miss KASIUS. 4 points.

Th., 1-3.

Open to juniors and seniors. Course 21 is prerequisite for Course 22.

A description of types of social work found in present-day practice and an interpretation of main underlying principles; social work organizations and the various methods employed in meeting social problems.

**31, 32 — The family.** Dr. KOMAROVSKY. 4 or 6 points.

Tu., 2-4.

Prerequisite, Course 1-2. Course 31 is prerequisite for Course 32.

## GOVERNMENT

**A major in Government.** — Students with a major in government should elect in **Government** — Courses 1, 2; 3, 4; 7, 8 and beyond these a number of more advanced courses determined in each case in accordance with the field of interest of the student.

In advanced work in the department a division of interest is recognized between

*A* — American government, politics and constitutional law, and

*B* — International relations and comparative government.

Because of the close relationship between the subject matter of history and that of government students majoring in government may offer as part of the required 28 points, 6 points in history including a choice of History 1-2; 9, 10; 11, 12; 51, 52; or 97, 98. When such courses are counted toward the major in government they may not also be counted toward the satisfaction of the requirement in other social sciences described below.

**Other social sciences.** — In view of the essential unity of the social sciences every student majoring in government is required to take courses from the following list amounting to 12 points distributed between two departments. Certain of these courses may also be counted toward the satisfaction of the general requirement in Group II. (See page 35.)

Anthropology 1, 2; 3, 4; 109;  
Economics 1-2; 13, 14; 17, 18; 27, 28;

M., W. and F. at 11.

Open to all students excepting freshmen. Course 3 is prerequisite for Course 4.

A survey of the governments and political problems of modern European states. Winter session: England. Spring session: France, Germany, Switzerland, Italy and Russia, with some reference to significant features of the governments of other continental countries.

**7, 8 — American political life.** Professor MOLEY. 4 points.  
Tu. and Th. at 9.

Open to all excepting freshmen. Specially intended for students not majoring in government who desire a broad survey of the subject matter of American politics.

American politics chiefly considered in the light of the ideas, achievements and influence of important political leaders such as Jefferson, Hamilton, Marshall, Lincoln, Hanna, Theodore Roosevelt, Wilson and F. D. Roosevelt, and of such interpreters of American life as Emerson, Whitman, Mark Twain and Henry Adams.

**9, 10 — The British Empire.** Professor PEARDON. 4 points.  
Tu. and Th. at 10.

Prerequisite for Course 9, Course 3 or the equivalent. Course 9 is prerequisite for Course 10.

The transformation of the British Empire into a Commonwealth of Nations; government and politics in the self-governing Dominions; India and the Dependent Empire.

**11, 12 — International relations.** Professor PEARDON. 4 points.  
Tu. and Th. at 2.

Prerequisite, Course 3, 4 or History 1-2 and junior or senior standing. Course 11 is prerequisite for Course 12.

A study of contemporary world politics with special reference to the basic factors — geographic, economic, political, traditional, etc. — that enter into the foreign policies of states.

**[23, 24 — Government and social control.** Professor CLARK. 6 points.

Prerequisite, 6 points in government, economics or sociology.

Methods of social control by government with particular emphasis on the legislative, executive and judiciary branches of the government and of the parts of the federal and state governments. The relationship of government to housing, child welfare, wages, industrial disputes and social security.

*Not given in 1938-39.]*

Courses 23, 24 and 25-26 will ordinarily be given in alternate years.

**25-26 — Constitutional law of the United States.** Professor CLARK. 6 points.  
M. and W. at 2.

**71, 72 — Problems of government.** Professors MOLEY, PEARDON and CLARK.

Hours and credit by arrangement.

#### *Graduate courses*

*Note: The following graduate courses in the Department of Public Law may be taken by specially qualified seniors. Students who desire to elect any of them must secure the approval of the Department of Government at Barnard. Ordinarily a minimum of 6 points of government in addition to a major interest in the social sciences is required as a prerequisite.*

#### GOVERNMENT

**\*101-102 — The process of government.** Professor WALLACE. 6 points.

Th., 7:30-9:10 P.M. 410 Fayerweather.

A consideration of certain problems of governmental organization and political practice including the formation of public opinion, the organization of political parties and our evolving constitutional system.

**\*117-118 — Contemporary American politics.** Professor MOLEY. 6 points.  
W., 7:30-9:10 P.M. 301 Fayerweather.

The course deals with the significant tendencies in American political life. Although stressing matters on which the parties differ, it also deals with the large questions of public policy in which the alternatives are not yet defined for the purposes of partisan controversy. On the side of machinery, the course is a study of the methods, not only of political parties, major and minor, but also of leagues and other organized groups, and of the political significance of newspapers, radio and other organs of so-called public opinion.

## PUBLIC LAW

**\*171, 172 — Modern ideas of the state.** Professor MACIVER. 6 points.  
W., 4-6. 401 Fayerweather.

This course may count toward a major in sociology.

Winter session: A review of the main trends of political thought from Machiavelli to the present day, with more emphasis on the period since Rousseau. In the main the course consists of a critical discussion of the doctrines of sovereignty, political obligation, liberty and the relation of citizen and state, as propounded by a succession of political thinkers.

Spring session: An examination of the theories associated with present-day forms of the state, with special reference to the conflict between totalitarian and democratic theories. This is followed by an analysis of the relation of the state to the economic order, regarded as a fundamental determinant of modern political problems.

Other courses offered at Columbia University are open to Barnard students under the conditions mentioned in the foregoing *Note*.

## GREEK AND LATIN

**A major in Greek, or in Latin, or in Greek and Latin combined.** — Students majoring in Greek, or in Latin, or in Greek and Latin combined will be required to take courses to be elected in appropriate sequence under the direction of the department. Toward a

**Major in Greek** — Any courses in Greek and 4 points in Archaeology or Civilization may count.

**Major in Latin** — Any courses in Latin and 4 points in Archaeology or Civilization may count.

**Major in Greek and Latin combined** — The following combinations are possible: (a) 18 points of Greek, 10 points of Latin; (b) 18 points of Latin, 10 points of Greek. No points in Archaeology or Civilization may count.

**19-20 — Latin composition.** First course. Dr. CLAFLIN. 2 points.

M. at 3.

May be taken in connection with any reading course in Latin, but not separately, except by special permission. Strongly recommended as a parallel to Courses **3, 4** and **11, 12**. This course may be taken for credit in two different years.

**21 — Horace: *Satires, Epistles*.** Dr. DAY. 3 points.

M., W. and F. at 9.

Prerequisite, Courses **11** and **12**.

**22 — Juvenal; Martial; Pliny.** Professor HIRST. 3 points.

M., W. and F. at 9.

Prerequisite, Courses **11** and **12**.

Roman life and thought in the early Empire.

**25 — Vergil: *Aeneid VII-XII*.** Professor HIRST. 2 points.

Tu. and Th. at 9.

Prerequisite, Courses **11** or **12** and **21** or **22**.

**26 — Lucretius: selections.** Dr. DAY. 2 points.

Tu. and Th. at 9.

Prerequisite, Courses **11** or **12** and **21** or **22**.

[**27 — Tacitus: *Annals I-VI*, selections.** Professor HIRST. 2 points.

Prerequisite, Courses **11** or **12** and **21** or **22**.

*Not given in 1938-39.*]

[**28 — Ovid: selections.** Dr. DAY. 2 points.

Prerequisite, Courses **11** or **12** and **21** or **22**.

*Not given in 1938-39.*]

**29-30 — Prose composition.** Second course. Professor PASQUALI. 2 points. Th. at 1.

Prerequisite, Course 19-20.

May be taken in connection with any reading course in Latin, but not separately, except by special permission. This course may be taken for credit in two different years.

**[37, 38 — Plautus and Terence: selected plays; Cicero: *Letters*.** Professor HIGHT. 6 points.

Prerequisite, Courses 21, 22 or 25, 26 or 27, 28.

*Not given in 1938-39.]*

Courses 37, 38 and 41, 42 will ordinarily be given in alternate years.

**41, 42 — Latin literature.** Professor HIGHT. 6 points.

Tu. and Th. at 3, and a third hour to be arranged.

Latin oratory and Latin epic, tracing the development of rhetoric and the epic style through Latin literature.

**\*139-140 — Prose composition.** Advanced course. Professor HIGHT. 4 points.

Hour to be arranged. 310 Business.

Prerequisite, Course 29-30. Open to specially qualified seniors.

## HISTORY

**A major in History.** — Students majoring in history should elect in

History — Course 1-2 and at least two other general courses, such as those offered in ancient, medieval, English or American history (Courses 5, 6; 7, 8; 9, 10; 11, 12). They should then concentrate their attention on some special field in which to do work of a more advanced character, such as that offered in Courses 15, 16; 17, 18; 19, 20; 51, 52; 61, 62; 73, 74; 77, 78; 97, 98; 105, 106; 123, 124; 151, 152; 181, 182.

On account of the close relationship between the subject matter of history and that of government, history majors may offer as part of the 28 points of the major requirement 6 points in government selected from Courses 1, 2; 3, 4; 7, 8; 11, 12; 31, 32. When such courses are counted toward the major they may not also be counted toward the satisfaction of the requirement in other social sciences described below.

**Other social sciences.** — In view of the essential unity of the social sciences, majors in history must elect from the following courses 12 points distributed in two social sciences other than history. Certain of these courses may also be counted toward the satisfaction of the general requirement in Group II. (See page 35.)

Anthropology 1, 2; 3, 4; 107, 108; 109, 110;  
Classical Civilization 49, 50;  
Economics 1-2; 13, 14;  
Government 1, 2; 3, 4; 7, 8; 11, 12; 23, 24; 31, 32;  
Philosophy 1; 61-62;  
Psychology 1; 38;  
Religion 3, 4; 3a, 4a;  
Sociology 1-2.

History majors must acquire a reading knowledge of some foreign language.

With the work in history they may combine work in other departments to make up a group of correlated courses on some large subject, such as ancient history and philosophy or art, modern history and international relations or sociology, English history and literature or government, American history and economics, the history of thought and culture.

**Honors Course** (see page 36). — Candidates for honors will be examined both orally and by written paper on one of the following fields of history: ancient, medieval, modern European, English, American. In addition they will be expected to know something of the chief historians and their works in the various fields of history, as well as to have an appreciation of the types and methods of historical study and writing. A detailed statement of honors requirements is available on application to the department.

*I. Introductory course*

**1-2 — Survey of modern European history from the age of discovery to the close of the World War.** PROFESSOR HUTTMAN, MISS YOUNG and MME. MURET. 6 points.

M., W. and F. at 11 (I); also at 11 (II) primarily for juniors and seniors, at 2 (III); Tu., Th. and S. at 10 (IV).

Open to students of all classes.

Winter session: Foundations of modern Europe; political, economic and intellectual achievements from the fifteenth century to the eighteenth; the British, American and French Revolutions; the era of Napoleon and the Congress of Vienna. Spring session: The Industrial Revolution; rise of nationalism; social, intellectual and economic problems of the nineteenth century; imperialism and world politics; causes, character and consequences of the World War.

*II. General courses*

**5, 6 — The history of the ancient world.** Professor Oliver. 6 points.

M., W. and F. at 9.

Open to specially qualified freshmen on permission of the department. Fine Arts 41 is recommended as a parallel to this course.

A survey of the Ancient Orient, Greece and Rome.

**[7, 8 — Europe in the Middle Ages.** Professor BYRNE. 4 or 6 points.

Open to all excepting freshmen. Fine Arts 51, 52 is recommended as a parallel to this course. Course 7 is prerequisite for Course 8.

The history of the Middle Ages from the decline of the Roman Empire through the Renaissance; political movements and theories; social and economic organization; religious, intellectual and artistic life.

*Not given in 1938-39.]*

**9, 10 — History of the American nation from colonies to world power.** Miss YOUNG. 6 points.

M., W. and F. at 11.

Open to sophomores, juniors and seniors and to specially qualified freshmen with the written permission of the instructor.

Foundations of American nationality in the colonial era; political and social aspects of the Revolution, the Confederation and the Constitution; rise of democracy; conflict between nationalism and sectionalism; Civil War and reconstruction; modern industrialism and capitalism; foreign relations and American participation in the World War.

**11, 12 — Political and social history of England from the Norman Conquest to the World War.** Professor HUTTMAN. 4 or 6 points.

Tu. and Th. at 2.

Open to sophomores, juniors and seniors and to specially qualified freshmen with the written permission of the instructor.

Life in medieval England; the making of the Constitution; Tudor England; the separation from Rome; the Elizabethan Age; the Puritan Revolution. The expansion of England; political and social reforms of the nineteenth century; the Irish question; the Labour Party; international relations; the World War.

*III. More advanced courses***15, 16 — History of Greece.** Professor OLIVER. 6 or 8 points:

M., W. and F. at 1.

Open to juniors and seniors and to sophomores with the written permission of the instructor. Fine Arts 41 is recommended as a parallel to this course.

A short survey of Greek civilization in its three "stages": Helladic, Hellenic and Hellenistic; fifth century Athens, as the highest type of Greek culture, and the Hellenistic Age, as the period of cultural transmission.

Courses 15, 16 and 17, 18 are ordinarily given in alternate years.

**[17, 18 — History of Rome.** Professor OLIVER. 6 or 8 points.

Open to juniors and seniors and to sophomores with the written permission of the instructor.

The rise of Rome, her conquest of the Mediterranean world, a detailed study of the Empire.

*Not given in 1938-39.*

**19, 20 — The United States since 1890.** Miss YOUNG. 4 or 6 points.

Tu. and Th. at 10.

Prerequisite, Course 9, 10.

A study of some of the significant developments in the history of the United States, from 1890 to the election of 1936. The method of the course will be the consideration of specific problems in industrial, social, economic, political and diplomatic history, with practice in the use of source materials.

**51, 52 — Pre-war and post-war Europe.** Professor HUTTMAN. 6 points.

M., W. and F. at 10.

Open to juniors and seniors and to sophomores with the written permission of the instructor. Course 51 is prerequisite for Course 52 except with the permission of the instructor.

Political and social development of England, France, Germany, Russia and Italy since 1890. The Near East; the new imperialism; partition of Africa; international relations; the World War; the Peace Conference; the new Europe.

**61-62 — The French Revolution and Napoleon.** Mme. MURET. 6 points.

Tu. and Th. at 9 and Th. at 1.

Open to juniors and seniors and to sophomores with the written permission of the instructor.

A study of the Revolution. The background of eighteenth-century Europe. Origins of the Revolution, its political and social doctrines. The Napoleonic era and the spread of revolutionary ideas. Reaction and the Congress of Vienna.

**[73, 74 — The British Empire.** Professor HUTTMAN. 4 or 6 points.

*Not given in 1938-39.*

**77, 78 — Medieval civilization and the Renaissance.** Professor BYRNE. 6 points.

Tu. and Th. at 11.

Open to juniors and seniors and to sophomores with the written permission of the instructor. A fine arts course to be selected from 51, 52, 62, 65, 66 is recommended as a parallel to this course.

Winter session: The social and cultural history of the Middle Ages with emphasis upon developments in the twelfth and thirteenth centuries.

Spring session: Politics and society in the fourteenth, fifteenth and early sixteenth centuries.

**81, 82 — Seminar in historical study.** Professor BYRNE. 4 points.  
Th. at 4.

Required of honor students and open to students majoring in history upon approval of the department.

**[97, 98 — History of American foreign relations.** Miss YOUNG. 4 or 6 points.  
Preceding or parallel, Course 9, 10.

International relations of the American people from independence to world power. An attempt to understand the expansive forces of American national life in their relation to an evolving foreign policy. An analysis of the varied international interests of Americans and of such representative policies as isolation, the Monroe Doctrine, the open door and the freedom of the seas.

*Not given in 1938-39.]*

#### IV. Graduate courses

*Note: The following graduate courses in history, offered by the Faculty of Political Science, are open to specially qualified seniors. Written approval in advance of election and registration must be obtained from the chairman of the Barnard section of the Department of History. Ordinarily such approval will be granted only to students who have completed at least 18 points of history in Barnard, but in particular cases the department may consider as equivalent thereto other courses in the social sciences.*

**\*105-106 — History of European thought and culture.** Professor MUZZEY. 6 points.

Tu. and Th. at 10 and a third hour to be arranged. 302 Fayerweather.

The intellectual development of man; the thought and culture of the ancient civilizations; the philosophy and institutions of the Middle Ages; the birth of the scientific spirit and subsequent movements and speculation in various fields of religious, intellectual and social interest.

**\*123, 124 — Social and economic history of the Middle Ages.** Professor BYRNE. 6 points.

Tu. and Th. at 3 and a third hour to be arranged. 401 Fayerweather.

Except by special permission Course 123 is prerequisite for Course 124.

A study of medieval life from the fifth to the fourteenth century: the manor, the guilds, the rise of the towns, with special emphasis upon the growth of trade and of commercial institutions.

**\*151, 152 — History of nationality and nationalism in modern Europe.** Professor HAYES. 6 points.

Tu. and Th. at 10 and a third hour to be arranged. 301 Fayerweather.

Winter session: After an analysis of the principle of nationality and its relation to human nature, physical environment, biological heredity and human culture, the course treats of the factors accentuating national consciousness in early modern times and describes in some detail the rise of various nationalist doctrines in the eighteenth century and until 1815.

Spring session: Nationalist movements since 1815 with some attention to their effects on domestic politics and international relations.

**\*175, 176 — History of Chinese civilization.** Professor GOODRICH. 6 points.  
M. and W. at 10. 106 Low.

A historical study of Chinese culture from the earliest times to 1800. Political history is studied only in so far as it is needed as a framework and background for an understanding of the cultural history of the people. Special emphasis is given to recent archaeological discoveries in China and Central Asia and to connections between the civilization of China and that of the West.

**\*181, 182 — The establishment of the American nation, 1492-1829.** Professor KROUT. 6 points.

Tu. and Th. at 11 and a third hour to be arranged. 301 Fayerweather.

A survey of the European background of American history and the establishment in the New World of European institutions of contrasted types; the English settlements, their development and their experience with the colonial system seeking to protect and control them, resulting finally in revolt, union and organization, of the United States; the struggle for American neutrality; the development of national parties; the problems of territorial expansion.

Other courses in history numbered **100-200**, offered by the Faculty of Political Science, may be taken by specially qualified Barnard seniors with the approval of the department.

## HYGIENE

**A1-A2 — Personal hygiene.** Dr. ALSOP. 2 points. (See note below.)

Tu. at 11 (I), at 2 (II); Th. at 1 (III) advanced section for transfers only; F. at 11 (IV).

Prescribed for freshmen.

A study of the laws of health.

Note: Section III (advanced hygiene for transfers) must be elected in spring session by candidates for teacher's license in New Jersey who need three points in hygiene.

Lectures of this section on sex hygiene (courtship, marriage, motherhood and the family), given during the spring session, will be open to seniors optionally.

## ITALIAN

**A major in Italian.** — Students majoring in Italian will be required to take in

**Italian** — Courses 5, 6; 13, 14; 15-16; 17, 18; 19, 20; 21-22 and other courses to be arranged in consultation with the department.

**Other fields** — Classical Civilization 57, 58; English 53; Fine Arts 51, 52, 62, 65; History 7, 8, 105, 106; Philosophy 61-62.

Two years of French or German.

**Honors Course** (see page 36). — The comprehensive examination assumes: (a) the ability to speak and write Italian with facility; (b) a general knowledge of Italian literature from its origin to the present day; (c) a more thorough knowledge of some particular century or period; (d) some familiarity with the development of Italian political, economic and social institutions and with Italian art; (e) a reading knowledge of French or German or Latin or Spanish.

### *Language courses*

**1-2 — Elementary course.** Professor RICCIO and Miss CARBONARA. 6 points.  
M., W. and F. at 9.

Grammar, reading, composition and conversation.

This course may not be taken at the same time as Spanish 1a-2a.

**5, 6 — Practice course.** Miss CARBONARA. 4 points.

Tu. and Th. at 11.

Preceding or parallel, Course **13, 14**. This course may be taken for credit in two successive years.

Written and oral composition.

### *Literature courses*

**13, 14 — Practical course and introduction to Italian literature.**<sup>1</sup> Professor RICCIO and Miss CARBONARA. 6 points.

Tu. and Th. at 9 and a third hour to be arranged. 501 Casa Italiana.

Prerequisite, Course 1-2.

Reading of selected works by representative authors; rapid review of grammar; composition and conversation.

<sup>1</sup> Conducted entirely in Italian.

**15-16 — Dante and medieval culture.**<sup>1</sup> Miss CARBONARA. 6 points.

M., W. and F. at 11. 501 Casa Italiana.

Prerequisite, Course **13, 14**.

A study of Dante, his poetry and his times.

**[17, 18 — The Italian Renaissance.**<sup>1</sup> Miss CARBONARA. 6 points.

Prerequisite, Course **13, 14**.

Italian literature from Petrarch to Tasso.

*Not given in 1938-39.*]

**19, 20 — Italian civilization.** Miss CARBONARA. 6 points.

Tu. and Th. at 10 and a third hour to be arranged.

Open to students of all classes. Conducted in English.

A discussion of Italy's chief contributions to European culture.

**21, 22 — Special reading.**<sup>1</sup> Professor RICCIO and Miss CARBONARA. 4 or, with the permission of the instructor, 6 points.

Hours to be arranged.

Required of candidates for honors in Italian and of major students. With the written permission of the department this course may be taken in two successive years.

**[25-26 — Italian dramatic literature.** Professors BIGONGIARI and PREZZOLINI and Miss CARBONARA. 6 points.

Open to juniors and seniors. Conducted in English.

A study of the history of the Italian drama from the beginning to modern times, with special attention to the periods in which the influence of the Italian theatre has made itself felt in Europe at large.

*Not given in 1938-39.*]

**\*102 — Introduction to the history of Italian literature.**<sup>1</sup> Professor BIGONGIARI. 3 points.

M. and W. at 3 and a third hour to be arranged. 501 Casa Italiana.

Open only to seniors who have the written permission of the instructor.

An introductory study of Italian literature with special emphasis on the history of philosophical, religious and scientific questions.

**\*153 — Contemporary Italian literature.**<sup>1</sup> Professor RICCIO. 6 points.

F., 6:40-8:20 P.M. 501 Casa Italiana.

Open only to seniors who have the written permission of the instructor.

This course will trace the development of modern Italian literature with particular emphasis on the growth of new criticism and on the works of such writers as Croce, Palazzeschi, Papini, Gentile, Pirandello, Panzini, Soffici, and Baldini.

For a course in Comparative medieval literature, see English **52**, page 74.

Other courses given at Columbia University are described in the Announcement of the Division of Modern Languages and Literatures.

## LATIN. See Greek and Latin

<sup>1</sup> Conducted entirely in Italian.

MATHEMATICS

The courses in mathematics are arranged in two sequences, either of which is suitable for students electing mathematics as a cultural subject.

**Sequence A** is designed for students whose major interest lies in mathematics or in physics. In the courses of this sequence emphasis is placed on the formal and logical development of the subjects and also on the technic of operations and processes involved.

**Sequence B** is designed to meet the needs of students whose major interest lies in natural sciences other than physics, or in the social sciences. In the courses of Sequence B emphasis is placed on the practical application of elementary mathematics in the fields of science and social science. The cultural and vocational aspects of trigonometry, analytic geometry, the calculus, elementary mathematical statistics and graphical methods are stressed.

The arrangement of courses in both sequences admits of considerable flexibility. For example, a student who has elected in her freshman year courses in Sequence B can, without any handicap, change to Sequence A at the beginning of her sophomore year. A similar shift may be made from Sequence A to Sequence B, but students must consult the department to avoid duplication of work.

**A major in Mathematics.** — Students majoring in mathematics will be required to take in

**Mathematics** — 28 points selected from Sequence A. With the approval of the department courses in Sequence B may also count toward the major.

**Other fields** — The work will vary with the special interest of the student and must be arranged in consultation with the major department.

**Honors Course** (see page 36). — The comprehensive examination assumes: (a) a general knowledge of algebra, geometry and analysis; (b) a more thorough acquaintance with one of these divisions and of a special field within it; (c) familiarity with the history and literature of mathematics, including the ready use of French and German texts; (d) a fair knowledge of a second subject approved by the department and selected from a list including the sciences generally as well as other appropriate departments of knowledge. For further information and adjustment of requirements to individual cases, candidates should consult the officers of the department.

*Sequence A*

**1 — Trigonometry.** Professor SMITH. 3 points.

M., W. and F. at 9.

**22 (or 21r) — Analytic geometry.** 3 points.

Winter session only: **21r** — M., W. and F. at 2. Dr. LORCH.

Spring session only: **22** — M., W. and F. at 9. Professor SMITH.

Prerequisite, Course **1** or Course **7**, Sequence **B**.

Introduction to the analytic geometry of the plane and of space.

**24 — Algebra and theory of equations.** Professor MULLINS. 3 points.

M., W. and F. at 2.

Prerequisite, Course **1** or Course **7**, Sequence **B**.

Complex numbers, theory of equations, determinants, series and exponential functions, partial fractions, mathematical induction.

[**28 — Projective geometry.** Professor MULLINS. 3 points.

Prerequisite, Course **22** or Course **7-8**, Sequence **B**.

*Not given in 1938-39.*]

**29 —** See Sequence **B**.

**31-32 (or 32r) — Calculus.** 6 points.

Beginning in September: **31-32** — M., W. and F. at 10. Dr. LORCH.

Beginning in February: **32r** — M., W. and F. at 2. Dr. LORCH.

Prerequisite, Course **22** or Course **7-8**, Sequence **B**.

Differential and integral calculus.

**33 — Calculus.** Professor SMITH. 3 points.

Tu. and Th. at 10 and F. at 1.

Prerequisite, Course **31-32**.

Continuation of the study of calculus.

**[44 — The theory of space and time. Professor SMITH. 3 points.**

Prerequisite, Course 31-32.

Foundations of Euclidean geometry; transformations and groups; non-Euclidean geometry; the special theory of relativity.

*Not given in 1938-39.]*

**[45 — Analytic geometry of space and hyperspace. Professor SMITH. 3 points.**

Prerequisite, Course 31-32.

Modern methods in solid analytics. Vectors, matrices, groups, quadratic forms.

*Not given in 1938-39.]*

**47 — Elementary theory of numbers. Dr. LORCH. 3 points.**

M., W. and F. at 3.

Prerequisite, Courses 1 and 22 or Course 7-8.

A study of the properties of whole numbers. A variety of important and historically interesting problems will be discussed on an entirely elementary basis. Among the topics to be dealt with are: divisibility; Euclid's algorithm; prime numbers; quadratic residues; diophantine equations; rings and fields.

**56 — Differential equations. Professor SMITH. 3 points.**

Tu. and Th. at 10 and F. at 1.

Prerequisite, Course 33.

An elementary course in differential equations.

**58 — Higher algebra. Dr. LORCH. 3 points.**

M., W. and F. at 3.

Prerequisite, Course 31-32.

The theory of determinants and matrices with applications. Systems of linear equations. Symmetric functions, elimination theory.

**133, 134 — Fundamental concepts of modern mathematics. Professor KASNER.**

M., W. and F. at 11.

Preceding or parallel, Course 31-32.

A general survey emphasizing the bearing of higher theories on elementary mathematics and the historical evolution of ideas. Topics treated: transformations and groups, point-sets and topology, imaginary and hypercomplex numbers. Applications to physics.

Courses 133, 134 and 135, 136 are ordinarily given in alternate years.

**[135, 136 — General introduction to higher mathematics. Professor KASNER. 6 points.**

Preceding or parallel, Course 31-32.

Development of the number system. Modern theory of infinity. Elementary geometry of four dimensions; vector geometry; conformal representation. Groups, finite and continuous. Non-Euclidean and  $n$ -dimensional geometry. Mathematical physics.

*Not given in 1938-39.]*

### *Sequence B*

**7-8 — Mathematical analysis. Professor MULLINS. 6 points.**

M., W. and F. at 11.

Winter session: Coördinates, graphs, frequency curves, index notation, common logarithms and their application, trigonometry and its application. Spring session: Analytic geometry: the straight line, the circle, the conic sections and exponential curves. Elementary treatment of the calculus and its application in finding rates, maximum and minimum values and areas. Graphical solution of polynomial equations.

**29 — Graphical and numerical methods.** Professor MULLINS. 3 points.

M., W. and F. at 2.

Prerequisite, Course 7-8 or Course 22, Sequence A.

Nomographic charts for calculation, solution of equations by graphical and numerical methods, numerical integration, numerical solutions of differential equations.

## MUSIC

**A major in Music.** — Students intending to major in music should plan to take Course 1-2 in the freshman year and Course 31-32 in the sophomore year as these courses are prerequisite to the advanced courses in literature, history and theory which are normally included in a major program.

In general, major programs are planned to include some advanced work in both branches. Applied music courses are counted toward fulfillment of the major but not required.

Attendance at the Collegium Musicum meetings is compulsory for all music majors.

**Other fields** — Courses in other departments, depending upon the need of the individual.

**Practice rooms.** The department provides practice rooms for the use of students of organ and piano. Preference is given in assigning hours to those enrolled in courses given by the department. Application for practice time on the piano should be made to the comptroller's office, 107 Milbank. Organ students should apply to the department secretary, 601 Journalism.

**Library.** The department maintains in Room 701 Journalism a lending library of books and scores available to all students of the University. In addition, phonographs with a large collection of records are available to students. Books, scores and records and a phonograph room are also available at the Barnard College Library.

**Honors Course** (see page 36). — Students taking the Honors Course in music are required:

1. to do research in a field of their own selection, acceptable to the department, the results of which are embodied in a paper to be completed during the senior year.
2. to pass a comprehensive examination in musical history, theory, analysis and general musicianship, given at the end of the senior year.

*A. Literature and history*

**\*1-2 — A survey of music.** Professor MOORE, Miss TENNEY and Mr. RHODES. 4 or 6 points.

Tu. and Th. at 10 (I) for juniors and seniors only, at 11 (II), for all students, and additional drill at hours to be arranged (4 points); additional hour (sight singing), F. at 3 (6 points). 603 Journalism.

Winter session: The materials of music. A study of the elements of musical structure designed to form intelligent habits of listening to music. No previous knowledge of music is required. Spring session: A rapid survey of the principal styles and forms of the literature of music.

**[\*3 — Beethoven.** Professor MASON. 2 points.

Prerequisite, except by special permission, a grade of A or B in Course 1-2 or the equivalent.

*Not given in 1938-39.]*

**[\*4 — Romantic composers.** Professor MASON. 2 points.

Prerequisite, except by special permission, a grade of A or B in Course 1-2 or the equivalent.

*Not given in 1938-39.]*

**\*5 — Post-romantic composers.** Professor MASON. 2 points.

M. and W. at 10. 703 Journalism.

Prerequisite, except by special permission, a grade of A or B in Course 1-2.

Grieg, Dvořák, Saint-Saëns, César Franck, Tchaikowsky, D'Indy and Elgar.

**\*6 — Brahms.** Professor MASON. 2 points.

M. and W. at 10. 703 Journalism.

Prerequisite, except by special permission, a grade of A or B in Course 1-2.

**\*9-10 — History of music.** Professor LÁNG. 4 points.

Tu. and Th. at 9. 602 Journalism.

Prerequisite, Course 1-2 or the equivalent.

A rapid survey of the history of music from the beginning of the Christian era to the present day.

**\*u13-u14 — The pianoforte and its literature.** 4 points. Mr. HOUGH.

M., 4:35-6:15. 703 Journalism.

Open to all students.

An historical study of the instrument and its literature.

**\*u21-u22 — Esthetics of music.** Professor LÁNG. 4 points.

Tu., 7:30-9:10 P.M. 703 Journalism.

An inquiry into the laws of order and construction through which music gains shape, form and its means of expression and communication.

**\*107 — Bach.** Professor MOORE. 2 points.

Tu. and Th. at 2. 703 Journalism.

Prerequisite, Courses 1-2, 31-32 or the equivalent.

A study of the content, forms and styles of Bach's music.

**\*108 — Twentieth-century tendencies in music.** Professor MOORE. 2 points.

Tu. and Th. at 2. 703 Journalism.

Prerequisite, Courses 1-2, 31-32 or the equivalent.

Lectures and discussions of the idioms, esthetics, forms and styles of the chief contemporary composers.

**Collegium Musicum.** First and third Mondays of each month at 7:30 P.M.  
College Parlor, Barnard.

The aim of this organization is to acquaint the students with certain neglected and unfamiliar masterpieces in the literature of music, in order to supplement concert and recital programs to be heard in the city and elsewhere. All students majoring in music are required to attend the meetings and are urged to participate actively in the performance of vocal and instrumental music. The literature to be used will embrace music from medieval times up to the present day. Emphasis will be placed upon a variety of compositions and not on finished performance.

## PHYSICAL EDUCATION

*In addition to the medical certificate which the student presents before admission, a physical and medical examination at college is required of all students at entrance.*

**A1, A2 — Rhythmic fundamentals, body mechanics and other activities.**<sup>1</sup>  
2 hours.

M. and W. at 10 (I), at 11 (II), at 2 (III), at 3 (IV).

**And sports, games, dancing or swimming.** 1 hour.

Hour to be arranged on Tu., Th. or F.

*Prescribed for freshmen.*

A course in personal hygiene (Hygiene **A1-A2**) is also prescribed for freshmen.

As soon as possible after the medical and physical tests are completed, each freshman will be given a motor ability test and a classification test in swimming. The test results will be used as a basis for deciding the type of physical activity

<sup>1</sup> See program in Barnard Hall.

the student will enter.

A medical and physical examination, a motor ability test and a swimming test will be required at the end of the spring session.

This combined program forms an orientation course for freshmen.

**B1, B2 — Sports, games, dancing, individual gymnastics and other activities,<sup>1</sup>** including remedial and corrective work. 3 hours.

The type of activity offered will vary with the season and a student's choice should be governed by her health grade, her defects, her group requirement and her preferences. See *Syllabus* for full statement.

Sophomores are required to take two of their three hours on Tu. and Th. The three hours must be taken on different days.

*Prescribed for sophomores.*

**C1, C2 — Sports, games, dancing and swimming,<sup>1</sup>** to be elected in any authorized activity, depending upon the student's physical condition, her group requirement and her preferences. Specific activity will be prescribed only in special cases.

M. to F. inclusive at hours to be arranged on different days. 2 hours.

*Prescribed for juniors.*

**D1, D2 — Sports, games, dancing and swimming,<sup>1</sup>** Substitution of approved activities will be allowed in special cases.

M. to F. inclusive at hours to be arranged on different days. 2 hours.

*Prescribed for seniors.*

*Activities classes* are arranged on skill levels, beginning, intermediate and advanced and students should register accordingly.

Within the "time requirement," a group achievement plan has been set up. Students who fulfill these group requirements are excused from supervised activity during their senior year, provided they are in good physical condition and have no remediable defects. See *Syllabus* for full details.

Students wishing to take up physical education as a profession are advised to consult Professor Wayman early in their college career. It is not possible to major in physical education, but a course of study can be planned which will help to shorten post-graduate study in that field.

Students wishing to qualify as camp councillors or social workers are urged to choose their electives accordingly. An intensive course for student councillors for Barnard College Camp will be given at camp in June after the close of college. (Consult Miss Holland.)

The Red Cross Life Saving Course and tests will be given each session and may be counted as a regular elective.

Special training will be given for the development of student officials for sports and games.

**101, 102 — Dancing, sports, games and swimming** for women graduate students under the Faculties of Philosophy, Political Science and Pure Science, and women students in the professional schools of the University (excepting Teachers College). 3 hours. 1 point each session.

All regular sections are open provided the registration is not already filled by

<sup>1</sup> See program in Barnard Hall.

undergraduate students. Graduate students who wish credit must take work in classes in which instruction is given and should avoid "open hour" sections.

There is a prescribed dance and sports costume for all work, approximate cost, \$7; swimming suits, \$1.50. For further information inquire at Barnard Hall, Room 209.

## PHYSICS

**A major in Physics.** — Students majoring in physics will be required to take in

**Physics** — Courses to be arranged in consultation with the department.

**Other fields** — Mathematics: analytics, differential and integral calculus and if possible, differential equations.

Chemistry — 1 year's work.

A reading knowledge of French and German by the beginning of the junior year.

A course in another natural science.

**Honors Course** (see page 36). — The comprehensive examination assumes, in addition to the requirements for students majoring in physics, that the students have supplemented the ground covered in the announced courses by (a) readings and reports on the theory and wider applications in various fields; (b) readings and reports upon the history of the development of important principles, including some study of the lives of principal contributors to the development of the science; (c) more advanced laboratory experiments in some field; (d) the independent solution of some theoretical or experimental problem in the field of major interest.

**11-12 — General physics.** Professor BOORSE and Dr. TOWNSEND. 8 or 9 points.

Lectures: M., W. and F. at 11.

Laboratory: For students electing 8 points, 2 hours each session; for students electing 9 points, 2 hours winter session, 4 hours spring session. M., 2-4; Tu., 9-11, 2-4; Th., 1-3, and, if more than 64 students elect the course, F., 2-4.

Premedical students are advised to take the course for 9 points.

**30 — Modern physics.** Professor BOORSE. 3 points.

M., W. and F. at 10.

Prerequisite, Course 11-12.

An elementary survey of the development of atomic theory from Dalton up to the present time with special emphasis on the Rutherford Bohr atom and its modification as demanded by contemporary advances. A brief treatment is then given of ionization of gases, spectroscopy, photoelectricity, X-rays, radioactivity, isotopes and transmutation of the elements.

**31 — Mechanics.** Dr. TOWNSEND. 4 points.

M., W. and F. at 9 (or hour to be arranged) and 2 hours of laboratory work.

Prerequisite, Course 11-12, except by special permission of the department.

**[33 — Heat and introduction to thermodynamics.** Professor BOORSE. 4 points.

Prerequisite, Course 31, except by special permission of the department.

*Not given in 1938-39.]*

**[34 — Light.** Dr. TOWNSEND. 4 points.

Prerequisite, Course 11-12.

*Not given in 1938-39.]*

**[35 — Electricity and magnetism.** Professor BOORSE. 4 points.

Prerequisite, Courses 31 and 33 except by special permission of the department.

*Not given in 1938-39.]*

**36 — Electricity.** Dr. TOWNSEND. 4 points.

M., W. and F. at 1 (or hour to be arranged) and 2 hours of laboratory work.  
Prerequisite, Course 11-12.

**37, 38 — Supplementary laboratory work** in mechanics, heat, light or electricity to meet the needs of individual students may be arranged in consultation with the instructors. Professor BOORSE and Dr. TOWNSEND.

Hours and credit by arrangement.

**39 — Photography.** Dr. TOWNSEND. 3 points.

Hours to be arranged for 1 lecture and 4 hours of laboratory work.

Prerequisite, Course 11-12.

The theories of optics as applied to photography and photo-micrography. The principles of still and motion picture photography; infra-red, ultra-violet, and X-ray photography. The theory of color photography.

## PSYCHOLOGY

*A major in psychology will satisfy the requirement in Group II. Students majoring in this subject must satisfy the 14-point requirement in Group III in subjects other than psychology. For other students, courses in psychology will count toward the requirement in the group indicated for each course by the statement made in connection with the point value.*

**A major in Psychology.** — Students majoring in psychology will be required to take in

**Psychology** — Courses 1 (or 2) or Education 07A; 7-8; and the additional points with the advice of the department.

**Other fields** — One year in philosophy (6 points); one year (8 points) in another laboratory science and an organized program in other fields to be arranged in consultation with the department.

**1 (or 2) — Introduction to psychology.** 3 points either session in Group III.  
(See also Education 07A, Section II, page 71.)

Winter session:

**1** — M., W. and F. at 9 (I), Dr. ANASTASI.

M., W. and F. at 10 (II), Dr. SIMPSON.

Tu., Th. and S. at 9 (III), Dr. SPRAGG.

Tu., Th. and S. at 10 (IV), Dr. YOUTZ.

Spring session:

**2** — M., W. and F. at 9 (I), Dr. ANASTASI.

M., W. and F. at 10 (II), Dr. YOUTZ.

Tu., Th. and S. at 9 (III), Dr. SPRAGG.

Tu., Th. and S. at 10 (IV), Dr. SIMPSON.

An introduction to the chief facts, principles and problems of normal adult psychology, through systematic study of a text, lectures, exercises and reading in special fields. This course is a prerequisite to all other courses in psychology and in education.

**Educational psychology.** Professor HOLLINGWORTH and Dr. SIMPSON. 3 points either session. See Education 07A, page 71.

**3 (or 4) — Mental adjustments.** Professor HOLLINGWORTH and Drs. ANASTASI, SIMPSON, YOUTZ and SPRAGG. 3 points either session in Group III.

Lectures (see note below): Th. at 1 by the staff of the department. Labora-

tory, Tu. and Th. 2-4, Dr. SIMPSON (winter session) and Dr. YOUTZ (spring session).

No prerequisites.

A non-technical survey of the principles of mental health, occupational choice and educational guidance, designed to acquaint the student with psychological contributions to these problems and to afford, on the basis of practical suggestions and objective tests, a background of information for personal application.

*Note. Lectures or conferences on problems of personal adjustment will be given by all the members of the psychology staff on Th. at 1 and these may be attended without registration or credit by any Barnard student. The lectures are required for those taking the course for credit.*

**7-8 — Experimental psychology.** Drs. ANASTASI, YOUTZ and SPRAGG. 8 points in Group II.

M. and W., 1-4, (I) limited to 24 students, Dr. ANASTASI.

M. and W., 1-4, (II) limited to 20 students, Dr. YOUTZ.

Tu. and Th., 2-5, (III) limited to 24 students, Dr. SPRAGG.

Prerequisite, Course 1 (or 2) or Education 07A.

The course presents the chief problems, methods and results of experimental psychology. Each student conducts a series of typical individual experiments, participates in certain group experiments, prepares systematic reports of results, and is introduced to the literature of experimental psychology.

**19 (or 20r) — Developmental psychology.** 3 points either session in Group II.

Winter session only: **19** — Tu. and Th. at 11 and a third hour to be arranged, Professor HOLLINGWORTH.

Spring session only: **20r** — M., W. and F. at 1, Dr. SIMPSON.

Open to juniors or seniors who have had Course 1 (or 2) or Education 07A.

A survey of mental origins, of the developmental stages of human life through infancy, childhood, youth, maturity and old age, with special reference to biological, psychological and social factors in individual growth and adjustment and to the formulation of general developmental laws. Special reading will be directed toward the psychology of childhood and adolescence.
